## Mount Grad, Marine, Dies In Air Crash

First Lieutenant Michael Wasilfsky, 25, son of Dr. and Mrs. A. M. Wasilfsky, near Emmitsburg, was killed Tuesday in the crash of a Navy plane in Alabama. The plane was believed to have been on a training flight from the Pensacola, Fla., base. The pilot also was killed.

The wreckage was found in southern Alabama, near the Florida border.

Wasilfsky was a graduate of St. Joseph's High School, Emmitsburg, and Mt. Saint Mary's College in 1960. In addition to his parents he is survived by a brother, Justin, a senior at the Mount, and a sister, Marian. His father is a teacher at Mt. Saint Mary's College and at St. Joseph College. His mother was formerly a teacher at St. Joseph High School.

## SAYS 500 WILL TAKE PART IN SUV PROGRAM

The Sons of Veterans Reserves, North-South Skirmish Association and the reactivated unit members who will comprise "The Union Army at Gettysburg" during the battle anniversary period will participate in a program at the GAR home, E. Middle St., June 2 honoring the men from Adams County who took part in the Civil War.

Col. O. G. MacPherson, R. 1, commanding officer of the Pennsylvania Brigade of the SUV Reserves, has been appointed "commanding general" for the "Union forces" here by the state centennial commission. He told the Adams County Civil War Centennial Commission Tuesday evening that he expected 500 to take part.

It is expected that at least four five and drum corps will be among the units present.

It was reported at Tuesday's meeting that the state commission will have 500 Union troops bivouacked near the Pennsylvania Monument and 500 Confederates bivouacked at the former CCC camp along W. Confederate Ave. during the celebration. The Confederates will be under the command of Donald A. Ramsey, head of the Confederate High Command.

### SHRIVER TO SPEAK

MacPherson and Chester S. Shriver, national commander of the SUV, said other "union troops" who will be bivouacked at Hanover will also be invited to take part in the program. Shriver will be the speaker.

Further plans were discussed for the June 27 program marking the Confederate "capture" of Gettysburg on June 26-27, 1863. Dr. Samuel Kirkpatrick, of Hanover, will be asked to head the Confederate cavalry. The re-enactment will take place at the courthouse.

Further plans were also discussed. (Continued On Page 14)

## TROOPS WILL MARCH AGAIN ON HANOVER RD.

The road between Gettysburg and Hanover will echo with the tread of marching Confederate and Union soldiers again in July, 1963, as it did a century ago.

Reports at Tuesday evening's meeting of the Adams County Civil War Centennial Commission in the courthouse on events in the immediate area during the battle period showed 3,000 uniformed men will take part in the re-enactment of the Battle of Hanover on June 30.

The re-enactment will be the only complete one to be held during the Civil War Centennial. The original battle lasted 3½ hours and so will the re-enactment.

About 1,000 of the members of the Sons of Veterans Reserve, North-South Skirmish Units, Reactivated Units, etc., who will make up the participants in the battle of Hanover, plan to remain bivouacked at Hanover through July 4.

They also plan to march daily to Gettysburg to take part in the proceedings here, watch various events and generally give a Civil War military aspect to the town. Each night they plan to march back to Hanover to their bivouac.

## \$500 Collision On Lincoln Highway

Damage totaled \$500 when two cars collided at the Cashtown intersection of the Lincoln Highway at 6:30 Tuesday evening.

Damage was estimated at \$350 to Fox's sedan and \$150 to Orner's car.

### HEAR SPECIALIST

Extension Specialist J. O. Dutt, of Pennsylvania State University, spoke on "Canning Crops" at the meeting. He was introduced by Associate County Agent Duane Duncan.

On the 14,000 acres on which tomatoes were grown for canning in Pennsylvania last year, the average yield was 12.2 tons per acre. He urged use of manure or the plowing under of cover crops as "green manure," in planting canning crops.

He showed slides of machine picking of tomatoes, and the sowing of tomato seeds, rather than plants, by machinery, which he said resulted in "terrific yields." He also showed slides of the growing of tomatoes in greenhouses, one of them 700 feet long by 120 feet wide.

Concerning sweet corn production for canning, he said "nitrogen is the key to production of sweet corn."

## Exchange Students Entertain Lions

Two exchange students at Gettysburg High School provided the program for the Cashtown Lions Club at their dinner meeting Tuesday evening at the Cashtown community hall with 40 members in attendance and with President Daniel J. Wolff presiding.

Ana Maria Silva from Guatemala and Mehmet Bayram from Turkey told the clubmen about their respective countries and Miss Silva did a Guatemalan dance in native costume. Mr. Bayram played the mandolin.

## Churchill Is Made First Honorary Citizen Of U.S.

By DOUGLAS B. CORNELL  
WASHINGTON (AP)—Sir Winston Churchill stands alone among all men as an honorary citizen of the United States.

Now in the evening of a great career, the 88-year-old Briton took an unprecedented stride into history when President Kennedy signed a proclamation Tuesday. It made him the first person ever to become an honorary American citizen.

In the President's view, it was something more than a reciprocal arrangement.

### NAME IS LEGEND

"By adding his name to our rolls," he said, "we mean to honor him—but his acceptance honors us far more. For no statement or proclamation can enrich his name now—the name Sir Winston Churchill is already legend."

In the view of the man who was prime minister in Britain's most dangerous days, the acclaim of this "mighty and benevolent nation" underscored the unity of the English-speaking peoples.

"In this century of storm and tragedy," he said in a message

## Churchill Is Made First Honorary Citizen Of U.S.

to Kennedy. "I contemplate with high satisfaction the constant factor of the interwoven and upward progress of our peoples. Our comradeship and our brotherhood in war were unexampled. We stood together, and because of that fact the free world now stands."

### SON READS MESSAGE

Churchill's words of gratitude for a great tribute were read by his son, Randolph. The grand old statesman was watching. Live television using an orbiting satellite as a relay point brought the scene into his London residence with exceptional clarity. A household spokesman said, "Sir Winston was deeply moved. He retired immediately after the broadcast."

It was said that Churchill's years and dwindling energy kept him home during the ceremony at the White House. Many times past he had been there on missions vital to war and peace.

Now it was denied him to be there once more, among associates and admirers assembled on the brilliant green lawn of the Rose Garden, wet with a shower that had passed.

## PLAN SUMMER TYPING CLASS AT HIGH SCHOOL

A six-week course in beginning typing will be held this summer at the Gettysburg Senior High School building for pupils presently enrolled in our schools in grades Seven through Twelve, it was announced today. The class will start on Monday, June 10. The ending date probably would be July 22.

The closing date may have to be adjusted since it is not known now how activities during the week of July 1 might affect classes that week. There would be no class held on July 4. Classes would begin at 9 a.m. DST each day, Monday through Friday, and continue until noon.

The cost of the course would be paid entirely by the parents of the pupils enrolled in the class. The cost per pupil depends upon the number enrolled in the course, school officials said. If the enrollment totals 20 pupils, the cost for the six weeks would be \$17.50 per pupil; if 25 pupils were enrolled the cost per pupil would be \$14 and if 30 pupils were enrolled the cost would be \$12.50 per pupil. If 35 pupils are enrolled, the cost would be \$10 per pupil. In each case, the total amount would be payable the first day the class meets and there would be no refund at the end of the class or if any pupil would discontinue the class.

The course will be offered only if there is a minimum of 20 pupils enrolled, and the maximum number of pupils that can be handled will be 35. All pupils who are interested in enrolling in this summer typing course should give their names to Charles E. Tressler, principal of the Gettysburg Senior High School, not later than Friday, May 24.

This course will not carry any credits toward high school graduation but is being offered so that those pupils who want typing but who cannot fit it into their schedule during the regular school session can secure this training. The school announcement said. It is not necessary for a pupil desiring to take the course to be enrolled in the business education course. Enrollments in the class will be accepted in the order in which applications are received.

The Adams County commissioners this morning opened six bids for painting the exterior woodwork at the courthouse and found no one from the county had submitted a bid for the work.

Surprised by six bids from out-of-county firms, the commissioners were told that a service has been established which sends to contractors lists of projects on which bids are sought.

The bids opened this morning, with no bid finally accepted pending study were: Van Hershey, Lancaster, \$1,850; Edward D. Meckley, Hanover, \$1,875; Nussbaum and Ott, Emmitsburg and Westminster, \$2,584; M. Gordon and Sons, Harrisburg, \$2,945; Ralph E. Goetz, Inc., Chambersburg, the low bidder last week for the work of replacing a wooden covered bridge with a prestressed concrete structure. The bid was for \$14,663.32. The contractor, filing the performance bond this morning with the signing of the contract, said work will start Saturday. The bridge is to be built within 120 days.

The resignation of Mrs. Earl A. Diely, East Berlin R. 2, as a member of the advisory board of the county home, a post to which she was renamed recently, was accepted "with regret." Mr. and Mrs. Diely plan to move to Florida in September. No appointment was immediately made to fill the vacancy.

### ADAMS "RICH" COUNTY

The commissioners reported this morning attendance Monday night at a meeting of a South Central County Commissioners Association at Bedford. The organization is for commissioners of sixth, seventh and eighth-class counties in the southeastern part of the state. The commissioners, in reporting Adams County's participation in the group, said discussions indicated that the counties have roughly similar problems and plan regular meetings to discuss common problems.

They also reported that the other commissioners regarded Adams as a "rich county" because it has a practically brand new jail and county home, and no bonded debt.

Revision of the bookkeeping system in the commissioners' office is underway, the commissioners reported. The new system is to bring the bookkeeping in line with sixth-class county requirements. The system used up to the present time is that for seventh class counties.

## \$20,700 LOSS WHEN 2 TRUCKS COLLIDE TODAY

A tractor-trailer collided with a dump truck operated by Jay Woodward, S. Washington St., at the McKnightstown intersection of the new Lincoln Highway this morning at 9:45 o'clock. Damage totaled \$20,700.

A passenger in the truck, Leroy E. Dunphy, 40, New Oxford R. 2, suffered a slight cut of the right eye, a cut right leg and abrasions of the hand. He was removed to the Warner Hospital in the local ambulance for treatment.

The truck, owned by Paul and Jay Woodward, roofers, 696 S. Washington St., was demolished. Paul Woodward estimated the loss at \$700.

Jay Woodward and Dunphy, an employee of the partnership, were driving toward a job near Arendtsville. According to Paul Woodward the truck was entering the Arendtsville Rd. on the north side of the Lincoln Highway when it was struck by a tractor-trailer owned by the Hanover Wire Cloth Co., and containing a load of meat. The driver, Philip P. Lightner, 24, of 45½ Centennial Ave., Hanover, told Jay Woodward he had turned to the left to avoid hitting the dump truck. The front of the tractor-trailer struck the rear of the dump truck rolling it over three times. The trailer also was extensively damaged.

State police said Woodward was traveling east on the Lincoln Highway and turned north into the Arendtsville Rd. The tractor-trailer was also headed east on the highway.

Police said the tractor portion of the tractor-trailer was demolished. Its frame was bent and one side crushed in. They estimated the loss at \$20,000. The trailer and the cargo of meat, police said, were undamaged.

## Seek Pact Between Reds And Neutralists In Laos

By ANTOINE YARED  
VIENTIANE, Laos (AP)—The three-nation International Control Commission flew to the Plaine de Jarres today in an effort to bring peace between neutralist and pro-Communist forces which have been fighting there for the past 10 days.

The commission's trip was part of a diplomatic campaign to restore peace in the area which the United States regards as a prime testing ground of the oft-proclaimed Soviet policy of peaceful coexistence.

A Southeast Asia Treaty Organization show of force also was scheduled as a warning to the pro-Communist Pathet Lao faction that is threatening to fan the flames of civil war again.

### PEACE MEETING

The control commission's Indian, Canadian and Polish members planned to stay only a few hours at the trouble scene 120 miles northeast of Vientiane since the Pathet Lao has refused to permit establishment of a permanent truce team there. The mediators hoped to arrange a peace

## P.O. WORKERS SELECT UNIONS

Gettysburg post office employees have chosen to be represented by the United Federation of Postal Clerks and the National Association of Letter Carriers, Postmaster Charles W. Pentz announced today. More than 451,000 U.S. postal employees made their choice of union representation in elections last June 15-July 1. Each post office was notified of the results today.

The move, developed by the postal service under President Kennedy's executive order of January 17, 1962, officially recognizes federal employee organizations for the first time. National agreements give local employee organizations the right to deal with the postmaster on local working conditions, personnel practices and in resolving interpretations under the local agreements. Pentz said.

The postal clerks will be represented by Local No. 5161. Letter carriers are members of Local No. 889. More than 30,000 post offices are recognized under the president's labor-management order for federal employees.

meeting between neutralist Gen. Kong Le and the Pathet Lao military chief, Gen. Singkapo.

A commission attaché made a fast trip to the Plaine Tuesday and reported that the fighting between neutralist and Pathet Lao forces had quieted down.

The commission plans to send a representative to the Plaine daily in an effort to prevent further outbreaks.

Repeated Pathet Lao attacks in the past 10 days forced neutralist troops of Gen. Kong Le to withdraw from the town of Xieng Khouang and retreat to the Plaine de Jarres, 120 miles north of Vientiane. The Pathet Lao already controls most of northern Laos. Neutralist and right-wing circles fear they may be getting ready to extend their hold.

### FEAR RED VICTORY

A full-scale campaign by the Pathet Lao probably would mean a quick Red victory—rather than a long war on the Viet Nam pattern—unless the United States and its SEATO allies intervene with large numbers of their own troops. The

Officers and engineers of the Gettysburg Municipal Authority Tuesday evening were authorized to advertise for bids for two projects which will provide Gettysburg with additional water supplies for the future.

Bids will be sought to rebuild the dam at the pumping station and to construct a new 11-inch line in the northern section of town. The line will run from Chambersburg St. past the campus of Gettysburg College.

The level of the dam will be raised in the reconstruction. The authority recently obtained water rights to permit the extension of the area upstream from the present dam.

### INCREASE RESSURE

The two projects will increase the flow and pressure of the present system and will meet the needs of any anticipated construction at the college.

The initial projects are part of a long-term program outlined by the board to increase present pumping facilities and to provide emergency water supplies for anticipated crowds this summer during the centennial programs.

The board also directed that the survey of various wells in the area be continued to establish one or more emergency sources for Gettysburg.

The authority is checking two wells, one in Colt Park and another on government property. Others will be examined for possible use as emergency supply sources.

### NEW LINES

The new line in the northern section of the borough will supplement the present four-inch and six-inch lines that have been in existence since the original water system was installed many years ago and which are inadequate to meet present demands for domestic supplies. The new line will increase water pressure and will be sufficient to take care of substantial additional construction in the future, the board indicated.

The two immediate projects will be financed from existing revenues, the board announced, so that additional funds will not be necessary for the improvements. The preliminary estimated cost is in the neighborhood of \$65,000.

Since 1949, when the Gettysburg Municipal Authority was established and lines were purchased from the privately-owned Gettysburg Water Company, the authority has been installing larger lines as they are needed. The original lines were four inches and six inches.

The program to extend the facilities of the authority is expected to last many years and will include the eventual enlargement of water mains and laterals to all sections of the borough.

## 700 WORKERS OPEN CANCER DRIVE MONDAY

The 1963 goal for the local crusade is \$11,900, an increase of \$1,400 over last year. The goal is based on the amount of medical and therapeutic assistance given to local cancer patients whose doctors refer them to the cancer clinic.

In announcing additional captains for other areas, Schwartz said that he hopes that solicitors will be able to limit their calls to 20 residences or businesses per volunteer worker. He indicated that the drive would be nearly complete within two weeks.

Thomas E. Piper, Adams County farm agent, and Henry W. Mattox, soil conservationist in Adams County, attended the eighth annual meeting of the U. S. Soil Conservation Service workers and county agents of the Agricultural Extension Service at State College, Pa., this week.

Rev. John M. Vannorsdall, chaplain at Gettysburg College, was the speaker at the annual Y-Teen breakfast held at the YWCA this morning at 7 o'clock. In greeting the 80 girls he reminded them that they had in abundance "the three things of prime concern to mankind, shelter, clothing and food. What then do you do with your spare time? Worry about your looks, your relations to others, your future?" He said, "Since your basic needs are met fully, you should realize more fully that you are loved by God and should be set free to serve others. God will not beat us into praising Him and serving Him; we are not puppets and neither was Jesus Who chose to suffer the Good Friday defeat. But it is His will that we understand His love for us, that we live our lives in His praise, in rejoicing in the good things of life, not the exploitation of them, and in the serving of others."

## Mr. And Mrs. E. J. Naugle Will Observe 66th Wedding Anniversary On Thursday; Octogenarian Hand-Plows His Own Garden

Mr. and Mrs. E. J. Naugle, Orttanna, will observe their 66th wedding anniversary Thursday at their home on the Mt. Carmel Rd., Orttanna R. D.

They were married April 11, 1897, in the home of the bride's parents, Mr. and Mrs. Conrad Winfield Scott Stultz, Mt. Carmel, by the Rev. Daniel Eyer, pastor of the Mt. Carmel U. B. Church. Mr. Naugle was a native of Mt. Alto and was a woodsman during his early lifetime, later was a general grocer at Mt. Carmel. He continued the grocery business until three years ago and claims it was a mistake to have given it up "so soon."

The Naugles, parents of 14 children, all living, are not planning a party for their anniversary. They have 26 grandchildren and 18 great-grandchildren.

"We've had so many parties," Mrs. Naugle explains, "that we don't need any more." She also protests "picture-taking" for the same reason.

### IN GOOD HEALTH

They are in remarkable health. Mrs. Naugle will be 84 on August 18; Mr. Naugle will be 90 on September 27. Despite arthritis Mrs. Naugle keeps house as carefully as she did as a young woman and her husband can be found any nice spring morning preparing his garden for planting.

"They grow enough vegetables in their garden to feed the whole family," their daughter, Mrs. J. D. Miller, Biglerville, says. She arrived at the Naugle home one morning this week to find her father pushing a hand plow through the soil in preparation to planting. When the plants begin growing, however, Mrs. Naugle lends an experienced hand with the weeding. The raspberry patch, though, is Mr. Naugle's private project and he cares for two acres "without much trouble."

### SELDOM ILL

Illness is a handicap the Naugles have been able to avoid in their 66 years of marriage, and it was not until three years ago that anything of consequence affected their physical comforts. Mr. Naugle went to the hospital for an operation, and it was then that the family insisted he give up the general store. A handbill from his store identified him as a "Dealer in Poultry, Eggs, etc., Fence Materials, Post and Rails, Cordwood and General Merchandise." He also "Delivered Anywhere."

"I was always a woodsman," he says. For many years he supplied the government with chestnut posts and rails which he cut from the mountains near his home for the maintenance of Battlefield fences. He attributes his health to the many years he spent in the woods. He has fallen a number of times "but never had more than a few little bruises." He fell down the cellar stairs last year, but "it was nothing serious." He

MR. AND MRS. E. J. NAUGLE

says he "used to be five feet four inches tall," and, although he always gains "a little bit" over the winter he weighs about 130 pounds. Mrs. Naugle teasingly reminds him that he gains "because he rests all winter," and reminds him that she works the year 'round.

### SENSE OF HUMOR

Each possesses a delightful sense of humor that defies complaints. They claim that they argue a great deal "but we always get our differences out in the open." Mr. Naugle says, emphasizing that his wife gave birth to 14 children and kept house for a large family. She reminds him that he had the responsibility of providing food and clothing for them. Their mutual admiration is evidence throughout their conversations.

While Mr. Naugle feels that he "should never have given up the store," Mrs. Naugle says she has always wanted to be a "minister" "so I could have done some good." She admits that raising a family is very important, but she also thinks that ministering to others is something she would have enjoyed doing.

The Naugles enjoy receiving company and their children and grandchildren visit them regularly, except for Mrs. C. S. Johnson, who lives in Massachusetts and is able to visit them only once or twice a year.

### ONE IS MINISTER

In addition to Mrs. Miller and Mrs. Johnson their children are: Rev. Ivan G. Naugle, Keedysville, Md.; George W. and Clifford, Gettysburg; Fred, New Oxford; Mrs. M. D. Murphy, Riverside, N. J.; Mrs. Charles Wert, Harrisburg; Mrs. John Reindollar, Fairfield; Arthur and Wendell, Orttanna; Mrs. W. H. Corban, Columbiana, Ohio; Ira, St. Thomas, and Mrs. C. L. Ballard, Arendtsville.

Mr. Naugle attends church and Sunday School every Sunday, barring illness, and contributes

25 cents to each weekly. In the winter he spends most of his time listening to Station WGET and reading the Bible.

"Depending upon how tired" they are at the end of a day, the Naugles retire between 8 and 9 o'clock each evening and are ready to start the next day by 7 o'clock in the morning. Mrs. Naugle enjoys one luxury, according to her husband. She is not required to get his breakfast on Sunday mornings. He gets his own so that he can get to church on time. Through the week, however, he chafes if Mrs. Naugle is late with his early morning repeat.

## Today In Harrisburg

By THE ASSOCIATED PRESS  
HARRISBURG (AP) — William B. Tollen, state commissioner of public assistance, has confirmed that he applied for a job in Washington, D. C., but says he has not made up his mind whether to accept the post if it is offered him.

Tollen said he filed his application two weeks ago for the job of director of the Washington, D. C., relief program. He said he applied at the request of District Commissioner John B. Duncan.

Tollen, who received \$17,839 in his present position, said he is "very happy and excited with my present job," which he has held since 1959. The Washington job pays \$19,500.

HARRISBURG (AP) — Mrs. Louise Russell, secretary of the Republican State Committee, will become chief inheritance tax appraiser in the Wilkes-Barre branch office of the state revenue department on April 16.

The appointment to the \$7,772-a-year post was confirmed Tuesday. She will replace Steven Farris. Mrs. Russell previously had been reported as the replacement for Miss Elizabeth Johnson, a career employee, as director of the Bureau of Women and Children in the state Labor and Industry Department. Miss Johnson said she was fired by Scranton administration.

Mrs. Russell turned the job down, reportedly because it carried a lower salary than Miss Johnson received. Miss Johnson was paid \$12,675 a year. Mrs. Russell reportedly was offered about \$9,000.

The job finally went to Mrs. Marjorie Tibbs of Harrisburg at an annual salary of \$9,923.

HARRISBURG (AP) — Union demonstrations against a 10 per cent cutback in highway maintenance jobs appeared to be dwindling today.

State police stood by, however, in several counties to preserve order in the event that pickets attempted to keep workers from their jobs.

Police said less than 100 pickets marched in a half-dozen counties Tuesday.

Most of the picketing was in Beaver County, where officials said about 25 pickets were out during the day.

## Pfeffer Quits Chairmanship Race

The threat of a contest for the Republican county chairmanship was removed this morning when Fred G. Pfeffer, borough treasurer and second candidate to file for the chairmanship, withdrew his petition and left Justice of the Peace John H. Basehor without opposition for the post. Pfeffer explained that his business will require him to be traveling and out of the county during the next month or more, time that should be devoted to campaigning if he should have decided to wage a fight for the chairmanship. Pfeffer added that he believed his move will be conducive to party harmony.

## Drive Against Cancer Opened:

Adams County women have joined in the war against cancer that was launched Friday by the Women's Field Army of the American Society for the control of cancer. A similar drive was conducted about a year ago and at that time the county division of the field army exceeded the quota set for this section in a week's drive. The local movement is directly under the sponsorship of the Adams County Federation of Women's clubs consisting of the Gettysburg Mothers Club, the Women's Community club of Littlestown and the Triology club of Biglerville. Associated with the county federation in the campaign are various organizations including the Acon Club, the Women's Auxiliary of the American Legion, the Order of the Eastern Star, Over the Teacups, Mary Gettys Rebekah Lodge and others. Mrs. Ralph Z. Oyler again has been named captain of the Adams county unit of the field army with lieutenants serving under her in county towns and rural sections: Mrs. Chester J. Tyson, Idaville, and Mrs. Hamilton Walker, Littlestown, are in charge of the drives in their respective sections. Contributions may be sent to Mrs. Edgar L. Deardorff, Carlisle St., who is serving as treasurer of the county units.

Gettysburg borough council at their meeting Monday evening elected Glenn Guise a regular police officer to succeed D. J. Wolff, resigned. The post of special officer formerly filled by Guise was abolished. Guise's advancement was by unanimous vote of council. He will be paid \$100 a month. Final decision on the parking meter question in Gettysburg was deferred for at least one month when bids were opened from four concerns on eight types of meters. The motion to table was made by Councilman J. Price Oyler of the first ward, who in addition to recommending that the bids be tabled "for a month at least" said "If the borough doesn't want the meters, I'm sure I don't want them."

**Elect May Queen:** Charlotte L. Waltemyer, Springs Avenue and Gertrude Evers, Baltimore, were chosen "May Queen" and maid of honor, respectively, for the annual May Day pageant to be held at Gettysburg College May 7, at an election by the women students in the main dormitory Wednesday evening.

**To Re-open Silk Mill:** Re-opening of the Gettysburg silk mill which has been closed since last fall has been set tentatively for May 1 and is now dependent only upon the sale of the \$70,000 first mortgage bonds to bear 6 percent interest. A committee of 12 local business men already has begun the sale of the bonds which are being issued in denominations of \$200 and \$500. Ralph Z. Oyler is chairman of the industrial committee of the Gettysburg Chamber of Commerce, which has taken an active part in the efforts to have the silk plant reopened here. ## KNOWLEDGE

The more you know, the more you will always be able to do.

Knowledge is better than to be fully armed. Wits work faster than swords and shoot straighter than any bullet.

If you know, you can go ahead. It's the one who doesn't know who hesitates.

The greatest hobby in the world is to keep learning.

Enrich your mind from the experiences and works of those who have spent great years and great labor in finding out. Tuck treasures into your heart, so that when you are alone and far away, you may feast as does a king with no one about him but obedient servants. But with this difference — you shall drink life, whereas he who can call but some lucky shall know nothing but irritation and poverty.

In knowledge there is an everlasting spring of water that is ever bubbling new sensations of beauty and happiness.

Knowledge helps a man to walk steadily and tells him which way to turn when he comes to the cross-roads.

If you have knowledge, you are able to see the simplicity in small beginnings and attempts, thereby entering upon big things with confidence and assurance.

Only those who have never learned the mastery of eash affairs fail in the doings of great things.

Keep adding to your knowledge. Hunt for new things. See something personal in the appeal of every human being and in every thing in nature. I am sorry for the one who cannot see a better view of God in every blade of grass he plucks.

But if you would know much, try to learn the art of emptying your mind of what it accumulates — that there may be room to learn more!

"MOVE WE ADJOURN"

When I'm weary of argument

And tired of continuous debate,

When the speaker like some

hurdy gurdy,

Which carries on early and

late,

Keeps up a monotonous bellow

On lessons I don't want to

learn,

'Tis then I give cheers for the

few

Who rises and moves to

adjourn.

There are motions to lay on the

table,

There are motions for this and

for that,

And I stick just as long as I'm

able

And hark to the chatterer's

chat,

I stand for the rising thanks

motion

For the one who has done a

good turn,

But my friend is the chap with

the notion

To get up and move to

adjourn.

There are some who like papers

and speeches

And open discussions of things;

The heights some new orator

reaches;

The lesson and message he

brings.

But each his own fancy must

cling to.

What one chooses others may

spurn.

So this simple tribute I sing to

The brother who moves to

adjourn!

United Cerebral Palsy Inc., New York City, entitled "What Is Cerebral Palsy?" Following the film, Mrs. Crowder told of the many letters that had been received in her office asking for aid in helping handicapped children and it was decided four years ago that certain counties would be designated as affiliates and Adams County was one of counties chosen. She said she had spent one day a month during that time visiting in Adams County at the homes of handicapped children. Some said the Gettysburg Center has a potential of 15 when they are able to get more volunteers and again urged the members of the club and any other interested person to visit the center and volunteer to help.

Mrs. Crowder concluded by saying CP conducts a "home service program for handicapped persons living outside of affiliated areas; conducts professional training programs for doctors, teachers, nurses and therapists; actively works with other statewide voluntary and governmental groups in planning and promoting service to the palsied; maintains active affiliation and support of the National United Cerebral Palsy Associations; maintains a wide public information service, including literature and films available on request and organizes and supports local groups who may contribute to the improved welfare of the cerebral palsied and their families."

The next meeting will be held April 23 at the REA building with the following serving for the coffee hour: Mrs. Samuel Higinbotham, chairman, Miss Anna Weaver, Miss Evelyn Altoff and Mrs. Brenda Walker, all of Littlestown.

The order covers the land, property and equipment of the Union School District, the first to be merged under mandatory legislation passed last year by the state Legislature affecting school districts without teachers. The directors of Union Independent district who will become Oxford township directors after July 1 are: Cornelius Hemler, John L. Staub, George A. Martin and Henry C. Moore.

Food shoppers throughout the country now are able to buy jelly in Gettysburg Centennial souvenir glasses.

The Musselman Division, Pet Milk Company, has introduced its apple-base jellies in six different 18-ounce centennial glasses locally and nationally. The set includes scenes of flags, cannon, the Monitor, the Merrimac, Lincoln Memorial, the Eternal Light Peace Memorial and prominent figures of the North and South. The tumbler are designed in red, white and blue enamels and are ice-cream size. The five apple-base jellies by Musselman are grape, cherry, blackberry, raspberry and apple. All are available in the local areas in the new centennial souvenir tumblers.

## DIEFENBAKER IN OTTAWA TO MEET CABINET

By MAX HARRELSON

TORONTO (AP)—Prime Minister John G. Diefenbaker flies to Ottawa today for talks that should determine whether he will try to remain in office despite the Liberal party victory in Monday's election.

The 67-year-old Conservative leader called a meeting Thursday of his lame duck Cabinet to consider the question.

He is expected to confer with leaders of the Social Credit and New Democratic parties to see whether they would support him if he decides to stay on. He would need the backing of both.

He probably will not announce his decision until the armed forces vote is tabulated. That may be another week. Liberal Leader Lester B. Pearson is ready to form a government if and when Diefenbaker steps down.

## HAVE MOST SEATS

The Liberals won the largest number of seats in the House of Commons but fell five short of a majority. They captured 128 of the 265 seats and the Conservatives took 96. The remainder were divided among the smaller parties—24 to Social Credit and 17 to the New Democrats.

The Liberals could pick up two or three additional seats when the service votes are all in, but there is only the remotest possibility they could get the 133 needed to give them a majority.

Under a precedent established by the late W. L. Mackenzie King, Diefenbaker could continue as prime minister without having the largest party in Commons but it would be necessary for him to have support from other parties. It is customary for the leader of the largest party to form the government.

## Ex-Accountant Is New ABC Head

NEW YORK (AP)—Thomas W. Moore has been elected president of the American Broadcasting Co. television network.

Announcement of Moore's election was made Tuesday by Leonard H. Goldenson, president of American Broadcasting-Paramount Theaters Inc.

Moore started his television career in 1952 as an account executive for the Columbia Broadcasting System. He was appointed ABC-TV vice president in charge of sales in 1957, and in 1958 became vice president in charge of programming.

## Trucker Stages Own Road Show

NEW ROCHELLE, N.Y. (AP)—You might say that truck driver Salvatore M. Augliera was in a predicament Tuesday.

His 14-foot, 9-inch trailer was too tall for the New England Thru-way toll gates and he was turned back. But a bridge underpass he had cleared on the approach had only a 13-foot clearance over the return lanes.

So Augliera, who wound up with a summons, had to wait for police to jockey traffic for him to use the lanes he could clear. And then he had to find another route to Stratford, Conn., with the load of scenery for the American Shakespeare Festival opening of "Comedy of Errors."

## Report From School Nurse Is Given

Four hundred fifty-seven nurse-pupil contacts were made at the schools here last month, according to the school health service report submitted to the Joint School committee Monday evening. The report shows 127 of those contacts were for first aid while 330 were for illness or other reasons.

Forty-seven pupils were sent home because of illness or injury and 13 were taken home. Eighteen pupils were referred to their family physicians and five to their dentists. The nurses made 11 home visits.

The nurses screened 268 pupils for vision, height and weight and 41 for hearing. Sixteen of the pupils were referred to their physician on vision.

Two hundred twenty-seven school employees were x-rayed during last month. Gym excuses were issued to 53 pupils.

## SAYS RETURNS \$5,000 SHORT

By DAVE LEHERR

LEWISBURG, Pa. (AP)—Thomas G. Gill of Wyoming, Pa., an accountant, testified Tuesday that the actual net income listed on the 1958 tax returns of the Avon Mining Co. was almost \$5,000 less than the total net income that appeared in Avon's books for that year.

Gill was recalled to the stand for cross examination today as the income tax evasion trial of Avon and the Peeley Mining Co. and four individuals continued in U.S. District Court. Gill was being cross examined when court recessed. Gill testified about the tax returns he prepared for the two firms.

The companies are charged with evading \$106,189 in corporate income taxes between July 1, 1956 and Nov. 30, 1958.

Gill explained that the \$5,000 difference came in percentage depletion—an allowance permitted under the federal income tax law to such companies as coal, gas and oil firms for exhaustion of natural resources.

The defense claims both Avon and Peeley were entitled to percentage depletion during the years they are accused of evading taxes.

## Bomb Traced To Overseas Captain

SAIGON, South Viet Nam (AP)—A bomb that exploded in a San Francisco, Calif., post office March 18 injuring a clerk, has been traced to a U.S. Army captain in South Viet Nam.

The captain, stationed in Saigon, had packaged an explosive device and sent it to his wife through the Army post office system.

The officer is scheduled to be taken back to the United States to be placed in a mental institution.

Identification of the officer was not announced immediately.

## Lenten Thought For Today

Mark's gospel indicates that on Monday of the first Holy Week Jesus entered the temple and drove out those who were changing foreign money into local coins and those who were selling animals for ceremonial sacrifices. Both of these businesses were originally meant to help travelers from a distance who had come to the holy city on some religious pilgrimage. Eventually, though, dishonest practices and exploitation of customers crept into the transactions. Jesus frankly called the guilty parties "thieves."

Perhaps dishonesty seemed to have a special taint of sacrilege within the temple confines, but it was wrong anywhere! He was concerned for integrity and fair dealing in all affairs. And that is something to be pondered in a nation where so many are saying "Dishonesty is the best policy. If you want to get ahead, you have to be clever enough to put a fast one over on somebody without his knowing it." It's something to ponder, too, in a community where annually there are many who come not on a religious but on a patriotic pilgrimage, expecting to be dealt with fairly and honorably. It's something to test and measure the ethics of the church's institutional life.

But Jesus was attacking another evil as well. Some people, because they were "outsiders," were not allowed within certain areas of the temple. Jesus objected to such exclusions and discriminations. He reminded them of God's word: "My house shall be called a house of prayer for all people." What would He say today of racially segregated churches or of such a breach of brotherhood in any part of society?

Jesus' cleansing of the temple precipitated the opposition that brought on His death. His words and actions were an attack upon the authority and graft of the priests. They would now plot His murder. And He would pay the price of Crucifixion for this effort to purify men's worship of God and make it apply to daily life.

## Fight Authorities Press Probe Of Boxer's Death

SCRANTON, Pa. (AP) — The chairman of the Pennsylvania Athletic Commission pressed his investigation today into Saturday night's boxing death and planned to talk to the fighter who threw the fatal punch.

Talks were scheduled between chairman Jim Crowley and Earl Johnson, the 17-year-old boxer whose punch in an amateur bout at Carbondale killed Francisco Velasquez.

Crowley said Tuesday he hoped to complete the probe by Thursday. He declined to discuss his findings until then, however.

The body of Velasquez, a 20-year-old soldier stationed at the Tobyhanna Army Depot, was en route to his Puerto Rico home today for burial.

### STUDENT ISOLATED

Johnson, a student at the St. Michael's School for Boys, has not been allowed to talk with anyone outside the school since the fight.

The Rev. Joseph T. Conboy, moderator of athletics for the school for dependent and neglected boys, said he talked with Johnson and he "seems just about back to normal."

He added, "I haven't been talking to him about the incident or boxing since Sunday. I told him the best way to forget it is to get it out of his mind."

Father Conboy said that on Sunday Johnson was quite shaken and related to him a haunting vision of Velasquez hitting the canvas.

"I told him (Johnson) a letter to the family (of the dead fighter) would be in order."

Johnson, a Negro from Philadelphia, came to the school in June, 1961. He's had no outside contact since then, said Father Conboy.

### SCHOOL QUITS SPORT

In the wake of the death, the school decided to give up the sport. Father Conboy said the other boys on the boxing team were "not keen on giving it up," however.

Ironically Velasquez was the only fighter wearing a headgear. All servicemen are ordered to wear them in the ring.

Tuesday, Crowley examined the headgear and said he found nothing wrong with it.

Even before Saturday's fight, legislation had been introduced in the Capitol to provide extra safeguards for fighters. One of the bills would require boxers to wear headgear.

**BRAIN INJURY**  
Referee Dom Perella reported that Velasquez seemed distracted just before the fatal blow landed. The referee was picking up Velasquez' mouthpiece, knocked out seconds before Velasquez was watching Perella when a sweeping right sent him down. An autopsy showed he suffered massive brain hemorrhage.

Crowley said he has had no indication the governor will declare a six-month moratorium on fighting in the state. There were reports the governor was considering such a step, and Henry V. Ventre, president of the Local Friends of Boxing, sponsors of the benefit card, said he would ask for the six-month moratori-

## BOB BAILEY LEADS BUGS TO FIRST WIN

PITTSBURGH (AP)—Although it may be a few years before the Pittsburgh Pirates realize a profit from their six-figure investment in the talents of young Bob Bailey, the rookie third baseman is starting to pay dividends.

Bailey slammed a solo home run—his first in the majors—and a crucial ninth inning single Tuesday that helped propel the Pirates to a 3-2 victory over the Milwaukee Braves in the Bucs' 1963 home debut.

Ted Savage's two-out pinch-hit single in the ninth actually gave Pittsburgh the winning run. And the Pirates never would have won without the typical ninth inning relief pitching of old reliable Elroy Face.

But to the 29,615 partisan fans at picturesque Forbes Field, including Pennsylvania's Gov. William Scranton, it was the 20-year-old Bailey who made the biggest impression.

"I'm real happy... real happy I hit that home run," Bailey said between sips of soda pop while sitting on a clubhouse bench after the game. "I hadn't hit too many in batting practice, maybe one or two, and it sure made me feel good to get my first one (in the majors)."

## Big Little League Will Meet Monday

A reorganization meeting of the Big Little League will be held Monday evening at 8 o'clock at the Eagles home, Chambersburg St., it has been announced by Glenn L. Bream, president.

Election of officers, dates for tryouts and the opening of the league season will be among the important business which will be transacted.

All directors and managers are urged to attend. Sponsors of the six teams in the league include the American Legion, Eagles, Elks, Exchange Club, Kiwanis Club and Phillips "66."

um. Proceeds from the card went to the local Kiwanis Club.

### NO PROSECUTION

In another development Tuesday, District Attorney Joseph Ciminio of Lackawanna County said he had no plans to prosecute Johnson, since there was apparently no criminal intent.

The Army, which said it does not plan to forbid off-post boxing, said the dead fighter's parents, Mr. and Mrs. Flor Velasquez, would get six months' basic pay in death gratuity and possibly other awards.

The Army prepared the body for burial and provided money for a burial plot.

## JOE PEPITONE HITS 2 HOMERS IN FIRST GAME

By JIM VANVALKENBURG  
Associated Press Sports Writer  
KANSAS CITY (AP)—Joe Pepitone belted two home runs in his debut as Moose Skowron's replacement at first base for the New York Yankees, then asserted: "This is a big year for me—I don't want to let this chance get away."

The Yanks traded Skowron, an established right-hander slugger, to the Los Angeles Dodgers for pitcher Stan Williams, a 14-game winner. This left the first base job squarely up to Pepitone, an outfielder for most of his brief career.

"He had a good spring, leading the club in home runs and runs batted in," said Yankee Manager Ralph Houk after Tuesday's opening 8-2 victory over Kansas

## 306,565 Fans At 11 Opening Games

By THE ASSOCIATED PRESS  
Attendance for major league baseball's two-day schedule of 11 openers reached 306,565, with Monday's presidential opener at Washington between Baltimore and the Senators drawing the top crowd of 43,022.

The top attendance mark on Tuesday's program was the 37,781 turnout at Detroit to watch the Tigers-Chicago White Sox inaugural. The top National League mark was 29,615 for the Milwaukee at Pittsburgh curtain-raiser.

Tuesday's nine-game program attracted 234,647 through the turnstiles with 121,935 viewing National League action and 112,712 watching the American Leaguers.

"He has the ability to match Skowron's record." This is a measure of the club's confidence in Pepitone. Skowron averaged more than 25 homers and 86 runs batted in the past three seasons. Pepitone, 22, is a Brooklyn-born

## GROAT UPSETS HIS CRITICS IN DEBUT AS CARD

By JOE REICHLER  
Associated Press Sports Writer  
NEW YORK (AP)—Critics of Dick Groat who claim the St. Louis Cardinal shortstop has slowed down can never make a case for themselves by his Polo Grounds performances.

The balding shortstop, who seems to rise to his greatest heights at the fabled old park,

left-handed swinger with powerful wrists and the grace of a natural athlete. He got into 63 games for the Yankees as a rookie last season, only 16 of them at first base and hit .239, with seven homers.

"Mickey (Mantle) kids me by saying I'm the only change in our lineup from last year, so if we don't win the pennant, it'll be my fault," Pepitone said.

put on his usual brilliant show Tuesday as the Cardinals ruined the Mets' home opener with a 7-0 victory behind the two-hit pitching of Ernie Broglio.

Groat, traded by Pittsburgh to St. Louis last winter because "he has lost a step or two," figured prominently in two scoring rallies against Roger Craig. Besides cracking three hits and scoring twice, the ex-Duke athlete played faultlessly in the field.

### LIKES PARK

"It will be a sad day for me when they tear down the Polo Grounds," Groat grinned.

"This park is just too much. Everything good has happened to me here."

"I played my first professional game here back in 1952. I got my first big league hit and my first home run here. I also played in the last game here before the Giants moved to San Francisco."

"Most important, I met my wife right in this park."

## Accuse Driver Of Unsafe Operation

SANDUSKY, Ohio (AP)—Charges of unsafe operation of a motor vehicle have been filed against Charles Taylor, 62-year-old Greyhound bus driver whose double-decker bus was involved in a fatal collision on the Ohio Turnpike Tuesday.

The collision of Taylor's bus and a tractor-trailer rig left one woman dead and six others severely injured.

Killed in the crash six miles east of the Sandusky-Norwalk interchange was Mrs. Gloria Loser of Lancaster, Pa., in her early 30s.

Those in critical condition at Fisher-Titus Hospital in Norwalk included Mrs. Dora Pearce, 66, Farrell, Pa.

The bus was enroute from New York to Chicago.

Taylor was to have retired today after 35 years driving buses.

## Sophomore Lefty Tosses Four-hitter For Bullets Who Edge Albright 1-0

Behind the four-hit shutout pitching of Sophomore southpaw Bill Forester, Woodbine, N.J., the Gettysburg College baseball team gained its first win of the year by edging Albright 1-0 Tuesday afternoon in Reading.

Forester sailed through the game allowing but two walks and striking out 11 batters as he became the first hurler to enter the win column for the Bullets. Not only did the 6'2", 210-pound fireballer toss an excellent game, but he came through at the plate lashing out a pair of safeties for four trips.

### RUN IN FIRST

Gettysburg scored its eventual game-winning run in the very first inning and was unable to capitalize after that. With one out, first sacker Frank Martin belted a full-count pitch deep into left-center field for a triple and shortstop Bill Jacobsen followed with a line single to left driving in Martin.

The Bullets loaded the bases in the second frame with one out but were unable to cross the plate. Albright threatened in the third inning by sending a man around to third with none out, but Forester got the remaining three batters to strikeout and ground out. The Lions came back again in the ninth to put men on first and second with one out, but Forester, after running the count to 3-0, fanned Bob Williams and got Steve Simon to foul out.

Catcher Ed Fisher topped the Lion hitters with a pair of safeties for four at bats.

Gettysburg will be looking for win number two when it travels to John Hopkins on Thursday. Following the game, the Bullets will take an Easter vacation and be back in action on the home diamond for the first time this year on Thursday, April 18, against Lebanon Valley.

## ANGELS BEAT BOSTON 4-1 ON SOFTER FIELD

By BOB MYERS  
Associated Press Sports Writer

LOS ANGELES (AP)—The Los Angeles Angels were delighted on at least two counts Tuesday, one being their 4-1 victory over the Boston Red Sox in the opening of the American League season. The other was the much-maligned infield at Dodger Stadium—pardon, for the Angels, it's Chavez Ravine.

The gripes were many last year over the so-called concrete infield. Not so this season, said the happy Angels. It's softer.

The Angels squared off again today against the Red Sox, hoping to sweep the two-game series.

## 21,864 SEE OPENER

Manager Bill Rigney of Los Angeles had reason to be on the relaxed side, too. For a change, his charges didn't wait until their habitual ninth inning to win a game. They did it in the fifth inning before 21,864 fans as Lee Thomas belted a three-run homer and another was scored on an unearned run.

Sharing heroics with Thomas was the four-hit pitching performance of Ken McBride, the Angels' chief hope for 20-game laurels this year.

The reason the Angels like the new infield's softness is simple. They have pitchers who throw a lot of breaking balls and sinkers, causing the enemy batters to hit ground balls.

Last year these hits took off like bullets. Now, say the Angels, they are easier to handle.

## New Plastic Aids Tooth Pain Killer

LITTLE ROCK, Ark. (AP)—A recently developed surface anesthetic now permits dentists to give actual pain-free injections, an Army dentist reports.

Col. Robert B. Shira, chief of oral surgery at Walter Reed Army Hospital in Washington, told the Arkansas Dental Association Tuesday that the surface anesthetic, a thin plastic sheet or film, is applied directly to the gums.

The film dissolves rapidly, producing profound surface anesthesia, he said.

## Familiar Pattern On First Day Of Season In NL As 3 Top '62 Twirlers Repeat

By JIM BECKER  
Associated Press Sports Writer

You can be pardoned for that feeling that this is where you came in.

The National League baseball pennant chase got under way in earnest Tuesday, and these were some of the results on the first full day of action:

Don Drysdale, a 25-game winner last year, won for the Los Angeles Dodgers.

Jack Sanford, 24 wins, got the victory for the San Francisco Giants, as Willie Mays (49 last season), Orlando Cepeda (35), Felipe Alou (25) and Willie McCovey (20) homered.

Art Mahaffey, 19 wins, set down the hard-hitting Cincinnati Reds on four hits, for the Philadelphia Phillies.

And the New York Mets, 120 losses last year, fell on their faces.

PIRATES EVEN RECORD

The scores were Los Angeles 5, Chicago Cubs 1; San Francisco 9, Houston 2; Philadelphia 2, Cincinnati 1, and the St. Louis Cardinals 7, New York Mets 0.

The Pittsburgh Pirates, who dropped the annual day-ahead opener Monday at Cincinnati to the Reds evened their record at 1-1 with a 3-2 victory over the Milwaukee Braves.

The Dodger victory may have been costly. Shortstop Maury Wills, the league's Most Valuable Player last year, left after the sixth inning with a jammed left ankle and was doubtful for today's game with the Cubs.

TRIED HYPNOTIST

Wills, who stole 104 bases last season, revealed before the game that he had become worried about his valuable legs, and had gone to a hypnotist during the winter to try to get the worries off his mind. Wills apparently hurt the ankle in the third inning when he

was thrown out at the plate on a double play.

Drysdale gave up 11 hits but was helped by three double plays, as he won his sixth straight over the Cubs. The Dodgers broke a 1-1 tie in the sixth when Willie Davis tripled and scored on a balk by pitcher Larry Jackson, obtained in a winter trade from the Cards.

Rookie Ken McMullen iced the game with a two-run double in the ninth.

The Giants jumped off to a 6-0 lead at Houston. Cepeda's homer in the second opened the scoring and Sanford tripled him two runs in the same frame. Sanford weakened in the 90-degree heat and left in the sixth after giving up three straight singles. Jack Fisher, picked up in a trade with the Orioles, pitched hitless relief.

WAS NEAR SHUTOUT

Mahaffey, the 24-year-old hard throwing right-hander, had a two-hit shutout going into the ninth. Frank Robinson opened that inning for the Reds with a single and moved to second on a ground out. Robinson scored when catcher John Edwards smashed a line double. Mahaffey then struck out Gene Freese and rookie Tom Harper to end the game, but only after Freese had missed a home run by a few feet.

Joey Jay, 21-14 last season, also pitched well, giving up only five hits in the seven innings he worked. Three singles, with Don Demeter's coming with two out, scoring the first Phillie run in the fourth. In the sixth, John Allison doubled and scored when Cincinnati first baseman Gordie Coleman let a double play relay throw get through him for an error.

NEW CAST, OLD ACT

The Mets, the worst tenth-place team in history last year, opened with an almost entirely new cast, but the same old act. They fumbled and fozzled the ball in the field, and were woeful at bat, as Ernie Broglio set them down with two hits. Larry Burright got both, a single in the first inning and a double in the ninth. At one stage, Broglio retired 20 Mets in a row.

A newcomer, third baseman Bob Bailey, whose bonus has been estimated in the \$175,000 area, sparked for the Pirates. He hit a homer and a crucial single. The Pirates won in the ninth off reliever Bob Hendley, when Bill Virdon singled with two out, and Bailey beat out a slow roller for a hit. Then pinch hitter Ted Savage struck the winning blow, a single. Elroy Face, who pitched out of a bases-loaded, none-out jam in the ninth, got the win in relief.

## 8-STATE UNIT IS PROPOSED BY PRESIDENT

WASHINGTON (AP)—President Kennedy has proposed establishment of a joint federal-state committee to prepare a program of economic development for the eight state Appalachian region which includes Pennsylvania.

The President outlined present aid and a program for further assistance in the future at a meeting Tuesday with governors and representatives from the states.

He noted that the area has only 5 per cent of the labor force but more than 11 per cent of the nation's unemployment.

## CUBAN LEADER CANNOT QUIT

MIAMI, Fla. (AP)—The Cuban Revolutionary Council rejected today the resignation of its president, Jose Miro Cardona, and said Miro would continue to head the anti-Castro exile organization.

A decision to refuse the resignation was reached in a 13-hour, all night meeting.

The council then issued a statement declaring a "state of grave crisis exists, caused by the present policy of the government of this country." President Kennedy's clampdown on anti-Castro raids prompted the declaration.

Cuban exiles were urged to close ranks to produce the necessary national unity to accelerate the fight to overthrow Castro.

The U.S. State Department, through a representative who flew to Miami, had added its voice to those who wanted Miro to continue heading the coalition of major anti-Castro fronts.

The grave-faced, heavy-set former Havana law professor was prompted to offer his resignation as a token of a clash with the Kennedy administration over its Cuban policy.

A government source, which would not be identified, said in Washington that Miro had demanded of U.S. officials a voice in a U.S. invasion of Cuba or else \$50 million to equip a Cuban expedition against Castro.

## World Long Will Study Strength And Character Of New American Citizen

By JAMES MARLOW  
Associated Press News Analyst  
WASHINGTON (AP)—Long after Sir Winston Churchill is gone men will trudge around his memory, like scholars around a pyramid, wondering how he was put together.

The ceremony for him Tuesday, giving him honorary American citizenship at 88, is both a tribute to a man and recognition of a monument. The man and the monument were built out of many unhappy experiences.

### MAGIC LANGUAGE

Language was his magic cement.

His greatest triumph perhaps was within himself. For 65 years he searched for acceptance, starting when he was a child. His father had little time for him and, apparently, small esteem.

Churchill regretted it for more reasons than one. Years later, looking back, he wrote that he had been eagerly awaiting the day when his father would accept him as an equal.

This quest for acceptance may explain much of his life: his brassiness, pushiness, endless airing of opinions, and his compulsion to dominate. They were tools he used to jimmy the door to distinction.

### BROUGHT DISREGARD

They only brought him disregard until under pressure of war the door opened and he became a cherished figure of history. His father would have had to accept him then, but probably with astonishment.

This was only one side of Churchill. While he thrilled to conflict, he loved life. This more than anything, made the contrast between him and Hitler look like the difference between a wolf and a shepherd.

Konrad Heiden, a biographer of Hitler but not an admirer of his sensitivity, said Der Fuehrer was a "child of nature quite capable of frying a chop over a Stradivarius violin."

### LOVED BUTTERFLIES

Edgar Black, one of Churchill's biographers, said he scared his

African guides when he went wandering around the Uganda lion country with a butterfly net. He loved butterflies.

Hitler went in for magic, astrology and quack doctors. One of his physicians said he aged rapidly after the war began. By the time Hitler at 56 killed himself in a Berlin bunker in 1945 he looked senile.

Churchill, too civilized for quacks or magic, grew hearty on war and late hours, and nearing 69, wanted to take part in the Normandy invasion. Only the king stopped him. He wasn't easily deterred in any direction.

He got a brain concussion at 5 when he fell off a donkey. At 18 he fell 29 feet into a ravine, ruptured a kidney, was unconscious three days and in bed three months.

### BROKE HIP IN '62

He had pneumonia several times, suffered a bunch of broken bones when a taxi hit him in 1932 in New York, and had a hernia operation in 1947. A stroke hit him in 1950 and another in 1953. He broke a hip in 1962 at 88.

When he got pneumonia in 1943, one of his doctors told him pneumonia is the "old man's friend" because it "take them off so easily." In his memoirs Churchill said "I made a suitable reply." He didn't put it in print.

It was one of the comedies of history when Churchill, who tried to dominate all conversations, complained that Roosevelt tried to dominate.

### MANY IDEAS

Roosevelt had reservations about the ideas which bubbled out of Churchill—he said "Winston had a hundred ideas a day and about four are good"—but the ideas were part of his zeal.

Another biographer, Robert Lewis Taylor, saw that same zeal when Churchill painted: "A gigantic easel, a light blue smock and a flapping beret the size of a small tent."

"In the words of one of his friends: 'He was a hell of a sight, if you know what I mean.'"

Churchill, like his idol, Edward Gibbon, had a compassion for the

## CANADA VOTE MAY GIVE LEAD TO LIBERALS

By MAX HARRELSON

TORONTO (AP)—Despite the confusion surrounding the outcome of Monday's election, it seems likely that Prime Minister John G. Diefenbaker can at best only delay the formation of a Liberal government.

In order to maintain his Conservative government in power, Diefenbaker would have to have the support of both the right-wing Social Credit party and the left-wing New Democrats. This does not appear probable.

If and when Liberal party leader Lester B. Pearson gets the bid to form a government, he is prepared to launch a blitz attack on a half-dozen urgent problems, including the sagging U.S.-Canadian relations.

### WILL TRY "NEW DEAL"

His prospective Cabinet members have been working for months on economic, financial, defense and foreign policy problems. Pearson has indicated he aims to follow the pattern on the famous 100 days of the New Deal in Washington.

The 65-year-old Nobel Prize winner has stressed over and over that he wants to pursue a good neighbor policy. He says he deplores anti-Americanism and what he calls "plucking the eagle's feathers."

Anti-Americanism was injected into the campaign, primarily by the Conservatives, but Diefenbaker insisted it was pro-Canadianism. The vote did not give any clear sign that the issue had influenced the decision.

Mandate or no mandate, Pearson is expected to put a priority tag on the task of patching up the tradition of friendship with the United States.

### WIDE BREAK

It would be a mistake, however, to conclude that the days of friction between Ottawa and Washington will end with the formation of a Liberal government. Both defense and economic differences are too wide for immediate solution.

The question of accepting nuclear warheads raises immediate difficulties. Although Pearson declared during the campaign that he favored accepting the warheads to the extent necessary to carry out Canada's commitments, he has never been enthusiastic about having nuclear weapons on Canadian soil. Until last January he was publicly opposing such a step.

"... the freedom of the press is one of the great bulwarks of liberty and can never be restrained but by despotic government." — Constitution of the State of Virginia, adopted June 29, 1776.

loneliness of nouns and hardly ever let them go unscouted by an adjective. The nouns weren't always prime and the adjectives weren't always proper.

The British philosopher, C. E. M. Joad, summed up Churchill in a sentence: "When the crisis came he turned out to be the average Englishman but the average Englishman raised to the nth degree."

## BOY DIES IN HOSPITAL LAB

SAYRE, Pa. (AP)—A 16-year-old boy whose body was found Sunday night in a special treatment chamber of a hospital laboratory died for lack of oxygen, doctors said today.

They said William Clayton of Waverly, a part-time worker at the laboratory, "showed evidence of other recent health problems" that rendered him susceptible to the low oxygen content in the chamber. They did not elaborate.

Dogs are kept in the chamber after heart operations. Clayton was employed to feed dogs. Hospital authorities said he was not supposed to enter the chamber but had done so previously.

Another employee found the body. The boy apparently died Sunday afternoon, an autopsy showed.

The youth was the son of Mr. and Mrs. John Clayton of Waverly.

## TFX ECONOMY MAY COST U.S. TOP WARPLANE

By G. MILTON KELLY

WASHINGTON (AP)—Sen. John L. McClellan, D-Ark., said Tuesday Navy testimony indicates that the effort to save money by designing the TFX warplane for both the Air Force and Navy may result in a "sacrifice of weaponry effectiveness."

McClellan heads the Senate Investigations subcommittee in a many-sided probe of the awarding of the contract to design, develop and produce the TFX as a multi-purpose new weapons system for both services.

### PROBE AWARD

Primarily the subcommittee is exploring whether favoritism influenced award of the contract to the General Dynamics Corp. of Fort Worth, Tex. Military evaluation boards had decided that a rival design from the Boeing Co. of Seattle, Wash., promised a better, cheaper plane.

Secretary of Defense Robert S. McNamara, who overruled the boards, has denied heatedly that any consideration but merit entered the decision. He contended the General Dynamics version would prove superior and less costly in the long run. He predicted TFX as a weapons system for the Air Force and Navy could save a billion dollars over the costs of separate systems for each service.

### INTERCHANGEABLE PARTS

McNamara contended much of the saving would stem from the "commonality" or interchangeability of parts between Air Force TFX and the lighter Navy version which Adm. George W. Anderson, chief of naval operations, said is still heavier than the Navy requested.

McClellan, in an interview said: "I think the testimony of Adm. Anderson certainly carries the implication, if not the statement, that operational effectiveness and weaponry quality have been compromised in order to achieve so-called commonality."

"That raises the question of what price has been paid in the sacrifice of weaponry effectiveness for commonality."

The subcommittee is in recess and has not announced when it will resume the hearings.

## Pope Asks End Of Arms Race And U.N. Structure To "Safeguard World Peace"

By EUGENE LEVI

VATICAN CITY (AP) — Pope John XXIII appealed today for an end to the arms race and for the United Nations to be given the structure and means to safeguard world peace.

In an encyclical titled "Pacem in Terris" (Peace on Earth), the pontiff called for reduction of arms stockpiles, a ban on nuclear weapons and a general agreement eventually on "progressive disarmament and an effective method of control."

The Pope warned that the "contagion" of war "may be set off by some uncontrollable and unexpected chance."

### "MUTUAL TRUST"

He added: "Even though the monstrous power of modern weapons acts as a deterrent, it is to be feared that the mere continuance of nuclear tests, undertaken with war in mind, will have fatal consequences for life on the earth."

The Pope called for the deterrent of arms equality to be replaced by universal acceptance of the fundamental principle "that the true and solid peace of nations consists not in equality of arms but in mutual trust alone."

Writing as the "vicar on earth of Jesus Christ," and as "interpreter of the very profound longing of the entire human family," the pontiff beseeched "especially those who have the responsibility of public affairs to spare no labor in order to ensure that world events follow a reasonable and human course."

### UN STRONG FORCE

Pope John indicated he hoped the United Nations eventually might become a strong world authority. But he did not specifically mention what peace-keeping means it should have at its disposal, such as a police force.

He said: "A public authority having worldwide power and endowed with the proper means for the efficacious pursuit of its objective, which is the universal common good in concrete form, must be set up by common accord and not imposed by force."

But the pontiff said nations were "right in not easily yielding in obedience to an authority imposed by force, or to an authority in whose creation they had no part, or to which they themselves did not decide to submit by conscious and free choice."

### EFFECTIVE SAFEGUARD

Pope John said a supra-national world authority must be considered because national leaders in the modern world are "on a footing of equality" and are "no longer capable of facing the task of finding an adequate solution to the problems."

"It is our earnest wish," the Pope continued, "that the United Nations—in its structure and in its means—may become ever more equal to the magnitude and nobility of its tasks, and that the day may come when every human being will find therein an effective safeguard for the rights which derive directly from his dignity as a person, and which are therefore universal, inviolable and inalienable rights."

## DEATHS

LONDON (AP)—Benno Moise-witsch, 73, one of the world's masters of the piano, died Tuesday after a short illness. As a concert pianist he had made more than 20 visits to North America as well as trips to Australia, the Far East, South America, South Africa and most of the European continent. He was born in Odessa, Russia, and became a British citizen in 1937.

NEW YORK (AP) — Charlene Cassini, 38, wife of Igor Cassini, recently indicted society columnist died Tuesday from an apparent overdose of a barbiturate, police reported. Her husband, who for years wrote the "Cholly Knickerbocker" column for the Journal-American and other newspapers, was indicted on charges of failing to register as a foreign agent for the Trujillo regime of the Dominican Republic. She was Cassini's third wife.

SAN FRANCISCO (AP) — Maj. Gen. Walter Campbell Sweeney, 86, a former director of the Army War College in Washington, D.C., died Tuesday.

MORRISTOWN, N.J. (AP)—Joe Jones, 54, an artist whose paintings hang in many museums in the United States and abroad, died Tuesday, apparently of a heart attack.

## DOCUMENTARY ON PARMA IS "PROMISING"

By CYNTHIA LOWRY

AP Television-Radio Writer

NEW YORK (AP) — The prestigious television documentary and public affairs show has developed into a vehicle to explore the big, the serious, the important, issue. Although many of them are very well done, the viewer wishes they could be lightened occasionally by humor or by a subject less vital than life or death.

CBS' News Department in one of its far-too-rare sallies into the yeasty areas of life, promises just such a program Thursday night. It is called "In the Mouth of the Wolf," and is a documentary about Parma, Italy, which has such a passion for and knowledge about opera that it can only be compared with Brooklyn's former feelings about the Dodgers.

During Parma's grand opera season, a performer is allowed just one mistake. Groans are heard after a second and if there are three, the unhappy singer is whistled off stage. Everyone, from the cop on the corner to the mayor, is a self-style expert.

### PRODUCER FASCINATED

Jay Sheers, the CBS producer who prowled through the operatic community to make the program, is fascinated by such phenomena—"things that get people excited beyond all reasonable standards."

CBS willing, he would like to inject a little more levity in the documentary field: the middle-class Brit's trek to oceanside Blackpool for his summer holiday; the provincial Frechman's passion for the "Folies Bergere," and the American love for conventions.

NBC's Huntley-Brinkley evening news show goes to a half-hour in September, and moves to 7 p.m. (EST) for a toe-to-toe battle with CBS' Walter Cronkite, doing his news at the same time.

Recommended tonight: "Encyclopedia of Communism," NBC, 7:30-9 (EST)—last of a series on the Soviet way, with Chet Huntley narrating; "In the Mouth of the Wolf."

## Three Families, Six Adults And 11 Children, Make Bus Trip Here From Delano, Minn.

Three families from Delano, Minn., comprising six adults and 11 children, adopted a unique and economical way to take their families on an Easter vacation.

The group included Mr. and Mrs. Phil Cariberg and children, Carolyn, 10, and Phil 12; Mr. and Mrs. Dwayne Stahlke and children, Beth, 4, Julie, 6, James, 13, and Steve, 15; and Mr. and Mrs. John Tukki and children, Deanna, 7, Barry, 9, Burton, 13, John, 14, and Janet, 16.

The families leased an executive-type Greyhound bus from the Delano Granite Industries, monu-

mental and structural granites, and elected to do their own driving. Three men and one woman, Mrs. Stahlke, a licensed school bus driver, were selected to alternate at the wheel of the "home on wheels" for the travelers from the Gopher state.

### LEAVE SATURDAY

The party left Delano, a little community of approximately 2,000, 26 miles west of Minneapolis, Saturday morning at 5 o'clock

and except for stops for fuel rode continuously arriving here at 10:30 o'clock Sunday night. They parked their vehicle at the home of Mr. and Mrs. Paul Peterson, Knoxlyn Rd. (they are friends of the Petersons.)

A tent was pitched outside the bus and five boys slept there in sleeping bags. The other 12 slept in comfortable built-in bunks in the bus. They toured the battlefield Monday and Tuesday morning and at noon left for Washington. They will then go to Philadelphia, Chicago and back home arriving in Delano Easter Monday.

The bus is equipped with four large booths with tables; a living room area with four large reclining chairs; a galley (well-equipped kitchen), shower and sleeping area. All the meals are prepared and served on the large bus. Five of the boys always sleep in the tent outdoors.

## Today In Washington

WASHINGTON (AP) — In the news from Washington:

**EASTER VACATION:** President Kennedy and his family fly south late today for an Easter vacation at Palm Beach, Fla.

The White House said it knew of no plans for the President to receive any official visitors while he is away from Washington. He plans to remain in Florida at least through Monday.

**SENSELESS RECORD:** President Kennedy's Committee for Traffic Safety has presented a report on highway accidents in the nation last year. 41,000 dead, 1.5 million disabling injuries, 3 million less serious injuries and estimated economic losses of about \$7 billion.

The President, in receiving the committee's report Tuesday, called it "a senseless record and a distressing waste of human resources."

In a special statement Kennedy said "there is no single answer to the national traffic safety problem" but that his committee is working hard on it.

**BIG GOVERNMENT:** Secretary of Commerce Luther H. Hodges offers this simple reason for government growing bigger by the day: There's a demand for it.

Therefore, Hodges told a House Civil Service subcommittee, "we can probably never do more than make a reasonable dent in the cost of our federal structure."

**RIFLE PRODUCTION:** A Pentagon decision is expected within the next month on whether to halt production of the M14 rifle.

The Marine Corps and most Army units have been equipped with the rifle which has cost more than \$130 million to develop and produce since 1957. Some Army units in the Pacific and Alaska do not have the weapon, which utilizes the standard cartridge for NATO ground forces.

Secretary of the Army Cyrus K. Vance told the House Armed Services committee earlier this year that "it may well be that we will move to procurement of substantial numbers of another type of rifle for specified units."

**MISSION IN MAY:** The astronauts' chief spokesman says preparations for the next Project Mercury manned space flights are "very satisfactory — very good" and are on schedule for an early or mid-May launch.

Air Force Lt. Col John H. Powers told a luncheon meeting Tuesday that astronaut Gordon Cooper recently completed a simulation of his planned 22-orbit, 34-hour flight in the Navy centrifuge in Johnsville, Pa.

## STEEL TO UP PRICE OF SOME OF PRODUCTS

By STERLIN F. GREEN

WASHINGTON (AP) — The wounds from the "Big Steel battle" were deep and the stitches still show.

While businessmen have gingerly accepted the Kennedy administration's peace offerings, they keep a wary eye on the smoke signals.

Tuesday night, on the eve of the first anniversary of the clash over steel prices, there was a new puff on the horizon. Wheeling Steel Corp. announced it will raise, as of today, the price of several of its steel products.

There was no reaction from the White House.

Since that furious struggle a year ago, President Kennedy has gone far toward repairing his relations with business — although he'll never turn Wall Street into a Democratic precinct, and never expected to.

### NOT ALL BAD

Many industrialists who now are cashing in on the \$2.5 billion of benefits from Kennedy's 1962 tax program—benefits that went to business exclusively—do admit nowadays that he can't be all bad.

President Ladd Plumley of the U.S. Chamber of Commerce told The Associated Press that Kennedy showed "manifest interest in the private sector of our economy" after the steel blow-up.

But he made it clear that there is no second honeymoon for Kennedy and business.

The patching-up of relations began to come unstuck in January, Plumley said, because of Kennedy's big spending budget, the costly dock strike settlement, and what Plumley called a hedge-podge tax reduction plan whose business benefits, in his opinion, are too little and too long deferred.

The U.S. chamber leader added: "The President said this was not the winter of his discontent. For businessmen, it has been the winter of our disappointment."

## Jesus Assured God's Work On Earth Was Completed

These words spake Jesus, and lifted up his eyes to heaven, and said, Father, the hour is come; glorify thy Son, that thy Son also may glorify thee:

As thou hast given him power over all flesh, that he should give eternal life to as many as thou hast given him.

And this is life eternal, that they might know thee the only true God, and Jesus Christ whom thou hast sent.

I have glorified thee on the earth: I have finished the work which thou gavest me to do.

And now, O Father, glorify thou me with thine own self with the glory which I had with thee before the world was.

I have manifested thy name unto the men which thou gavest me out of the world: thine were, and thou gavest them, and they have kept thy word.

Now they have known that all things whatsoever thou hast given me are of thee.

For I have given unto them the words which thou gavest me; and they have received them, and have known surely that I came out from thee, and they have believed that thou didst send me.

I pray for them: I pray not for the world, but for them which thou hast given me; for they are thine.

### GLORIFIED IN MAN

And all mine are thine, and thine are mine; and I am glorified in them.

And now I am no more in the world, but these are in the world, and I come to thee, Holy Father, keep through thine own name those whom thou hast given me, that they may be one, as we are.

While I was with them in the

world, I kept them in thy name: those that they gavest me I have kept, and none of them is lost, but the son of perdition, that the scripture might fulfill.

And now come I to thee; and these things I speak in the world, that they might have my joy fulfilled in themselves.

I have given them thy word; and the world hath hated them, because they are not of the world, even as I am not of the world. I pray not that thou shouldst take them out of the world, but that thou shouldst keep them from the evil.

They are not of the world, even as I am not of the world.

Sanctify them through thy truth;

thy word is truth. As thou hast sent me into the world, even so have I also sent them into the world.

### SANCTIFIED IN TRUTH

And for their sakes I sanctify myself, that they also might be sanctified through the truth.

Neither pray I for these alone, but for them also which shall believe on me through their word;

That they all may be one; as thou, Father, art in me, and I in thee, that they also may be one in us: that the world may believe that thou hast sent me.

And the glory which thou gavest me I have given them; that they may be one, even as we are one: I in them, and thou in me, that they may be made perfect in one; and that the world may know that thou hast sent me, and hast loved them, as thou hast loved me.

Father, I will that they also, whom thou hast given me, be with me where I am; that they may behold my glory, which thou hast

given me; for thou lovedst me before the foundation of the world.

### Guinness Asserts British Copy U.S.

NEW YORK (AP) — Alec Guinness believes that the London theater is copying Broadway in one unfortunate aspect.

"I have no rooted objection to New York's stage," the English star says, "but the city is one that has time for success, not nonsuccess, and someone can get heavily cut in that situation."

"At home, it formerly didn't matter if you appeared in a couple of flops. But now we're starting to catch up with the success complex."

Guinness, last on the White Way in 1953, is to return next season in a play about Dylan Thomas.

### Teachers Take Dramatic Roles

NEW YORK (AP) — Teachers are taking an active part in off-Broadway theatrical events this season.

Mordecai Gorelik, research professor at Southern Illinois University, adapted and designed production of Max Frisch's "The Firebugs."

Henry Kurth, of Western Reserve, provided the sets and costumes for "A Darker Flower," and Robert Alvin, a teacher at New York City's High School of Performing Arts, appeared in the cast of "Do You Know the Milky Way?"

Gordon Bradish, an assistant professor at New York University, was directing "Asylum" until playwright Arthur Kopit withdrew the script for revision.

### "BILLY LIAR" AT HEDGEROW

MOYLAN, Pa. (AP) — The Hedgerow Theater, one of the oldest experimental playhouses in this country, won the American premiere rights to "Billy Liar," a British play by Keith Waterhouse and Willis Hall.

## Health

Periodic physical examination is good for everybody.

It is valuable in three ways,

By showing unsuspected disease

In need of early treatment,

By showing tendency to disease

Preventable by altered living,

By showing health is present

And signs of disease absent

As to confirmation of health,

Or the need for correction,

Examinations reveal the truth.

## change to ELECTRIC HEAT —right in your present home

Want to make your present home more modern? Want to increase its resale value? Want to give your family more comfort and convenience? You can do all these things... when you change to Flameless Electric Heat!

You know, of course, that electric heat is the choice of many new-home owners. But it's also equally practical for many older homes. Here are some of the advantages you'll enjoy when you replace a worn-out heating system with modern electric heat.

- Extra living space. You don't need furnace, pipes, or fuel storage. Use your basement for recreation room, workshop or storage.
- Room-by-room temperature control. A thermostat in every room provides gentle comfort—does away with cold spots, chilly corners or hard-to-heat rooms.
- Save wasted heat in rooms not used or already adequately heated by sunshine radiation.
- Low installation cost. Replacing your old furnace with electric heat is one of the least expensive ways to modernize your house. Some dealers are offering a \$150 trade-in allowance on your old furnace.
- Safe, clean, quiet, trouble-free operation. No flame means no dirt—no fumes—no noise. And there's no maintenance or servicing.
- Guaranteed operating cost. A Recommended Reddy Kilowatt Electric Home Heating Dealer will estimate your annual heating cost. He'll give you a written two-year guarantee that your actual heating cost will be within 10% of his estimate, or he will reimburse you for the excess. And remember—a new lower rate makes the cost of electric home heating lower than ever before!

## WAYWARD BUS OF STUDENTS FINALLY FOUND

YOUNG, Ariz. (AP)—The great fuss over the wayward bus is over.

A two-state search for a busload of 10 high school students and five adults from Young ended in a Harbor City, Calif., motel Tuesday night.

All hands were reported safe. The bus driver, W. H. Merchant, principal of the high school, said the bus wasn't missing at all.

The bus left this tiny central Arizona community Saturday for an Easter vacation trip to Disneyland, Marineland and the San Diego Zoo.

Arizona authorities began a two-state search after members of the group failed to telephone their families Saturday night. The parents understood they were to get nightly phone calls, authorities said.

Merchant told police there was no such agreement. Besides, he explained, there were only a couple of telephones in Young, and it was often impossible to reach the town.

Adding to the confusion, police said, was the group's decision not to check in at the Long Beach, Calif., hotel where they had reservations. Merchant said they decided to stay at a motel in nearby Harbor City because the Long Beach hotel was perilously close to an amusement area and sailors out on the town.

Police said they found the missing Arizonaans after getting a phone tip from someone who had heard about the missing bus and spotted it in Harbor City.

Merchant told officers they plan to go to San Diego Thursday, then return home Friday or Saturday.

## Ultrasonics To Take Temperatures

PITTSBURGH (AP)—Westinghouse Electric Corp. announced today the development of a new system for measuring the temperatures of the ocean.

The job is done with ultrasonics—sound waves too high in frequency to be heard by the human ear, the firm said.

Arthur Nelkin, electroacoustics research manager of Westinghouse Research Laboratories, said laboratory versions of the ultrasonic thermometer can pinpoint underwater temperatures to five-hundredths of a degree.

Oceanographers agree that accurate temperature measurement is basic to a better understanding of the ocean depths.

## SAYS NEW PA. TAXES A MUST

PITTSBURGH (AP)—The State must raise taxes or else be passed by neighboring states, says Lt. Gov. Roy Shafer.

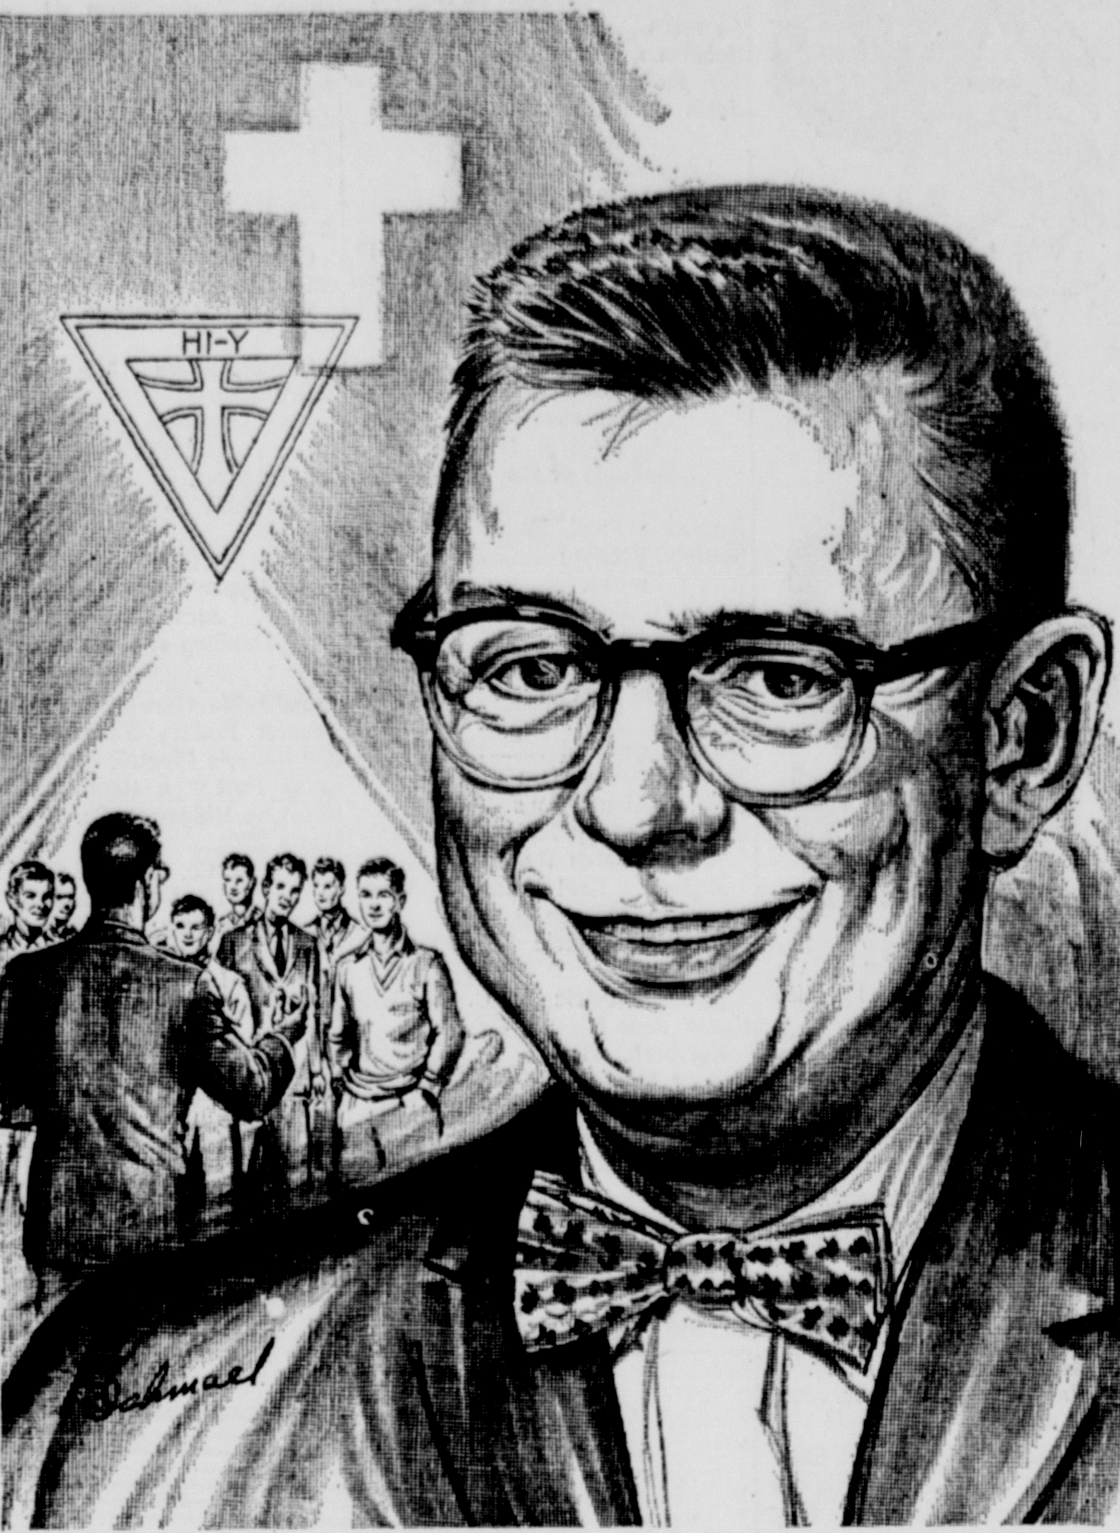

"Our financial problem is not one of politics and we cannot afford to be partisan about something which means so much to Pennsylvania," Shafer said Tuesday night.

He said the Scranton Administration was being realistic about financing the state government with the additional sales tax proposals on clothing shoes and cigarettes.

"The alternatives of raising revenue have all been carefully considered by the administration," he said, "and have failed the tests of meeting the revenue need, acceptance by the General Assembly and fairness to all people."

Shafer made his remarks in a speech to the Peters Twp. Chamber of Commerce at the Mount Lebanon County Club.

## The POWER of FAITH By WOODI ISHMAEL

When Jack Carpenter was born 38 years ago in White Plains, N. Y., the doctors said he would live only a few days. He had cerebral palsy. Throughout his life faith and determination have been his guideposts and, he says, "My religion has helped me over the rough spots."

His own handicap virtually licked, Jack started working for the good of others. He has been a member of the YMCA for 25 years. He helped launch the Junior and Senior HI-Y programs in his community and later was HI-Y supervisor. He also has taught Sunday School and is an advisor to High School groups.

For the past eleven years, Jack has been active in the United Cerebral Palsy Association. For ten years he has run a three week annual camp for handicapped adults. As Jack puts it, "If we believe in God and we believe in ourselves, we then should give the same to others."

## Rear Train Blamed In Fatal Collision

WASHINGTON (AP)—A fatal rear end collision of two freight trains near Atglen, Pa., last August was caused by failure to regulate the speed of the rear train, the Interstate Commerce Commission said Tuesday.

The engineer and fireman of the rear train were killed and eight other persons were injured in the collision.

The commission said the accident was caused by "failure to control properly the speed of a following train moving in an occupied block."

buildings it constructs.

The department has made cuts in other spending requests to offset part of these increased costs for GSA rentals and automobile purchases.

### MORE CS JOBS

Through its handling of contracts for equipment and supplies and other work for the various departments of state government, however, the department gets into many areas with political overtones.

Although the Civil Service Commission is a self-sustaining operation, legislators were expected to express interest in the effects of Scranton's proposed expansion of civil service coverage in the state employment.

The governor proposed that 32,000 jobs be put under statutory civil service. About 20,000 now have such coverage.

Military Affairs has asked for \$4 million in 1963-64, a drop from the \$5.4 million in the current budget.

### CONFUSION CREATED

The committees wound up Tuesday's session by listening to the governor's office explain its \$1.6 million spending requests for next year.

The wind up had all the appearances of controversy, but ended in aimless and ineffective efforts at partisanship.

Neither William G. Murphy, executive secretary to the governor, nor John W. Ingram, secretary of administration, would allow themselves to be drawn into partisan discussion.

Confusion was created by the fact the Scranton administration has decided to include all employees of the office of administration under the governor's office budget.

### INCREASE IS DECREASE

The office now has 110 employees carried on other departmental payrolls.

With the office of the administration payroll completely charged to the governor's office in 1963-64, the total governor's office appropriations showed an increase of nearly \$600,000 over 1962-63.

However, nearly \$900,000 of the \$1.6 million total is of administration payroll, thus the executive office budget actually represents a decrease of almost \$250,000 from its \$990,000 spending in the current year.

## 2 MANSIONS BELONGING TO EARLE BURN

PHILADELPHIA (AP)—Two mansions owned by former Gov. George H. Earle in suburban Philadelphia were destroyed by fire Tuesday night and a town-ship fire official said the blaze may have been the work of an arsonist.

Frank Morris, Radnor Township fire chief, said, "I suspect somebody put the torch to it." He said several beer cans were found in the wing where the fire started. The unoccupied mansions, which were joined by a gallery, were on an estate in Radnor and

Newton Townships. Earle, elected Democratic governor in 1934, said the mansions had not been occupied since 1927.

About 150 firemen from Radnor, Berwyn, Bryn Mawr and Newtown Square fought the blaze for an hour and a half. All that remained after the fire was some walls and chimney.

Morris said, "The mansion was completely in flames when we arrived. All we could do was keep it from spreading to the barn." Earle said one of the mansions was built in 1769, and the other in 1900.

## HEARINGS ON BUDGET GO ON IN HARRISBURG

HARRISBURG (AP)—The House and Senate Appropriations Committees scheduled a look today at the politically-sensitive Department of Property and Sup-

plies and at the state Civil Service Commission.

The Department of Military Affairs was scheduled for an afternoon appearance before the committees to wind up this week's three days of joint public hearings on Gov. Scranton's \$1.12 billion general operating budget for the 1963-64 fiscal year.

Property and Supplies has asked for \$40.7 million in the state funds for the fiscal period beginning July 1, an increase of \$3.8 million over current spend-

ing. It has asked for almost \$900,000 to replace 1,030 passenger vehicles. These are 1958 models or older.

### SOME CUTS MADE

The appropriation too pay for the General State Authority debt would be boosted \$3.7 million in the new year to pay increased principal and interest charges.

The GSA is the autonomous borrow-to-build agency. It pays for its bond issues by charging the state rent for use of the

Place in loaf pan, 9 by 5 by 2 1/2 inches, greased and sprinkled lightly with cornmeal; let rise until double in bulk; make gashes across top 1 inch deep; brush with melted butter; sprinkle with more cornmeal. Bake in moderate (375 degrees) oven 40 to 45 minutes, or until firm.

Turn the rhubarb into a 2-quart casserole; mix with sugar, raisins (rinsed in hot water and drained), and orange rind. Tuck in the cinnamon and cloves. Cover. Bake in a hot (400 degrees) oven 20 to 25 minutes or until rhubarb is tender but still keeps its shape. Cool. Makes 6 servings.

## The POWER of FAITH By WOODI ISHMAEL

Faith, the virtue that can move mountains, also can calm the fears of the sea.

Writing about the voyage that he, his wife and his friend Buck took across the Atlantic in a 26-foot ketch with no motor, Harold La Borde says:

"...We made it our duty to gather in the cockpit after the evening meal, to pray for good weather and the success of our voyage. Buck is a Protestant, (the La Bordes are Catholic) but the three of us prayed together with the same words and in the same spirit. 'I suppose it may sound silly, but out there on the Atlantic we found such a calm and peace of mind after our prayer each day, that a greater confidence in ourselves would come of it: a firm belief that we'd succeed.'"

table pieces and nuts. Drop level tablespoons a few inches apart, on buttered cookie sheet. Bake in moderate (375 degrees) oven about 10 minutes. Makes about 3 dozen.

#### THE BRIDE COOKS SUPPER

When roast beef is left over after the weekend, you might like to try this dish.

Beef a la Stroganoff  
Buckwheat Grits Green Peas  
Fresh Asparagus Salad  
Strawberry Shortcake Beverage

#### BEEF A LA STROGANOFF

1 pound leftover rare roast beef  
1 can (6 ounces) sliced mushrooms  
1 beef bouillon cube  
2 tablespoons butter  
1 medium onion, finely chopped  
1/2 pint cultured sour cream  
Salt and pepper to taste

Remove any fat from beef; cut into strips about 1/2-inch thick and 2 or 3 inches long. Drain mushrooms; dissolve the bouillon cube in 1/4 cup of the hot mushroom liquid. In a 10-inch skillet over low heat cook drained mushrooms and onion in butter until onion is golden. Add beef, sour cream and bouillon; stir over low heat until sauce is smooth and beef hot through. Add salt and

pepper and more mushroom liquid, water or stock if necessary to have sauce a medium-thin consistency. Do not boil. Sauce will be pale; if you like a darker color, add a little gravy coloring. Makes 3 or 4 servings.

1/4 teaspoon pepper  
1/2 teaspoon seasoning salt  
2 teaspoons sugar

Scrub zucchini and cut off ends; slice into thin rounds. In a 10-inch skillet melt the butter and add the zucchini and onion; mix well, cover and cook gently just until zucchini are tender—about 5 minutes. Mix in corn, salt, pepper, seasoning salt and sugar; reheat. If there is more than a few tablespoons of liquid in pan, reduce. Makes 6 servings.

1 tablespoon finely grated orange rind

8-inch pie shell with fluted rim, unbaked  
Turn peaches into a colander or strainer to drain thoroughly; sprinkle with lemon juice. Mix peaches with 1/4 cup of the sugar and 1 tablespoon flour; mix together the remaining 1/2 cup sugar and the 1/4 cup flour, butter and orange rind with a pastry blender until butter particles are fine. Turn peach mixture into pie shell; sprinkle with flour mixture. Bake on low shelf of a hot (425 degrees) oven until pastry and topping are lightly browned—30 to 40 minutes. Serve warm.

## GET PREVIEW OF PREDAWN DIVORCE RAID

By CHRISTOPHER MINICLIER

TRENTON, N. J. (AP)—A pre-dawn divorce raid which ended in chaos went to the Mercer County grand jury Tuesday—after a sneak preview in suburban Princeton on Monday.

The grand jury proceedings are secret, but a Princeton borough magistrate heard almost six hours of testimony Monday on why Mrs. Barbara Johnson said she shot a private detective repeatedly in her bedroom about 3 a.m. last Feb. 8.

The hearing was held at the request of Mrs. Johnson's attorney who wanted a chance to cross-examine witnesses before the case went to the grand jury.

During the course of the seven-man raid, one private detective was shot four times; Mrs. Johnson jumped out of the bedroom window to get help; two male house guests were thrown down the stairs by the raiders; and "Ebenezer," a three-year-old English bulldog, was shot in the eyes with ammonia—according to some 77 charges and counter charges filed in the case.

### CASE HELD UP

The case has been held up pending the release of the wounded detective, Harvey Blount, 50, of East Orange, from a hospital where he was recovering from his wounds.

Blount, a Negro, testified Monday that he was standing on the threshold of Mrs. Johnson's bedroom and had identified himself as a detective. Blount said he had just finished explaining who he was when he was shot in the face by Mrs. Johnson. He said he fell

into the room. Mrs. Johnson, an attractive, German-born mother of two who speaks with a slight accent, told an entirely different story.

### HEARD SCREAMING

She said that she awoke about 3 a.m. to hear men screaming and to find Blount pulling on her arm as she lay on her back in bed. He scratched her stomach in reaching for her arm, she said. "There was so much noise that it could have been coming from everywhere," she said.

She said she pushed him real hard and he fell backward. The first thing she said to him was "get out or I'll shoot," she testified.

"Then he started to advance toward me. He kept coming and I shot him. He kept coming and I shot him a little higher," she said. "I looked at him as if maybe he didn't realize what I was doing then I said 'I'm going to kill you,'" she testified.

She said she shot him once or twice more.

"He was attacking me," she testified. She later said, under cross examination, that no one else was in the room from the time she was awakened until Blount fell wounded to the floor.

Princeton police Lt. Francis J. McGuire testified that the seven men, plus Mrs. Johnson's estranged husband, J. Seward Johnson Jr., and two of his attorneys, met shortly before midnight on the night of the raid in a nearby motel on Route 1.

Police said at the time that the three raiders had cameras.

Johnson, son of a vice president of the Johnson & Johnson Pharmaceutical firm, New Brunswick, has filed divorce proceedings against his wife. The claims and counterclaims state Mrs. Johnson has been married three times before but they disagree about the dates and places of the marriage.

## A Lovelier You

FRESH BEAUTY. The fresh, youthful mood of fashion calls for a fresh approach to make-up.

Masky make-ups are entirely out of key. Besides, they have been so overdone as to become repellent.

What's wanted now is the iridescent glow of young, natural beauty. To provide it there is a whole new palette of cosmetics. It begins with a pink prefoundation that imparts a faint blush to the skin. Thereafter, a natural shade of base and powder is applied with a light hand. The effect has the diffused radiance of complexion perfection.

It is furthered by a film of pearly gray or brown eyeshadow—the merest film. The choice of mascara depends on the coloring of the lashes. Complimentary shades for light lashes are charcoal or brown; for dark lashes, charcoal or black. If a liner is used, it should make the mascara and it should be soft enough to draw the haziest of lines. The stroke to work for is about one-sixteenth of an inch wide and as sheer as veiling.

The only possible finish is a sparkling lipstick. And to that end, new lipsticks bestow sheen and gloss—a dewy look. The shades are buoyant, neither wishy-washy nor harsh. They are there, whether toned on the pink, peach or clear-red side.

You cannot imagine the charm of this make-up. You have to try it to discover its powers of enhancement. How you look like yourself, only better. How your fashions look made for you, just as they always should.

## RUSK REPORTS LAOS PROBLEM AT SEATO MEET

PARIS (AP)—U.S. Secretary of State Dean Rusk said Tuesday the United States and South Viet Nam governments have made important strides in their efforts to control Communist subversion in that Southeast Asian country.

Rusk, speaking in a closed session of the Southeast Asia Treaty Organization Ministerial Council, said the U.S. government and the regime of President Ngo Dinh Diem are hopeful that the worst is over in their fight against Viet Cong guerrillas.

### LAOS CONCERN

Conference sources said Rusk again expressed concern over the situation in Laos, where neutralist forces are under heavy pro-Communist pressure in the Plaine des Jarres region.

Rusk took the occasion to express the great importance of Thailand's membership in the eight-nation SEATO defense pact.

Elaborating on the speech, conference sources said Rusk had described the Laos situation as very critical. They quoted him as saying the first objective is to stop the fighting and the learn more of what is going on there.

The council was to go into the Laotian situation and its threat to neighboring Thailand in detail at another closed-door session this afternoon. The prospect that the pro-Communist Pathet Lao would take over all of northern Laos made the situation in the adjoining Southeast Asian kingdoms the major item before the council.

Monday Rusk urged all signers of the Geneva agreement "to prevent further aggravation of the situation."

The signers include the Soviet Union and Communist China.

British Foreign Secretary Lord Home told the ministerial council that his ambassador in Moscow, Sir Humphrey Trevelyan, has been in close contact with Soviet Foreign Minister Andrei Gromyko on the situation.

Britain and the Soviet Union are co-chairmen of the Geneva conference. They had their representatives in Laos appeal to all parties for restraint.

### FRENCH WARM

One side effect of the SEATO meeting was an apparent warming-up on French relations with Britain and the United States. Rusk conferred with President Charles de Gaulle in what was de-

scribed as a cordial atmosphere. It was the first such high level French-American meeting since De Gaulle spurned President Kennedy's offer of Polaris missiles for French submarines as a start toward a NATO nuclear force. Lord Home saw French Foreign Minister Maurice Couve de Murville for the first time since France blocked Britain's bid for entry into the Common Market. The British and Americans had another difficulty—Pakistan, a SEATO member, was reported taking a stand-offish attitude at the meeting because of arms aid to India by the two powers.

## East Berlin High Alumni Will Dine

At a recent meeting of the officers of the East Berlin High School Alumni Association, plans were made for the annual banquet to be held at the Pleasant Hill Fire Hall, south of Hanover, on Saturday evening, May 25, at 6:30. It is hoped that some member or members of each class from 1907 to 1957 inclusive will name a committee to assist in an effort to be well represented at the banquet. Alumni addresses can be secured from the association secretary, Mrs. Clark E. Frey, Abbottstown R. 1, telephone, East Berlin 239-3797.

## EAST SHORE TAPERS OFF ON MYSTERY BUG

PRINCESS ANNE, Md. (AP)—Dr. John H. Janney, a Maryland Health Dept. official said Tuesday a mysterious disease which has afflicted about 1,800 persons on Maryland's Eastern Shore seems to be tapering off.

The unidentified ailment continues to baffle the experts, said Dr. Janney.

Most of the affected persons live in the fishing community of Dames Quarter in Somerset County. Dr. Everett C. Sutter, who has treated most of the affected persons, contracted the disease last week.

The disease is characterized by dizziness, high fever, headaches, enlargement of the lymph glands and tenderness of the spleen and liver. Antibiotics have proved ineffective, Sutter said. Bed rest is about all he prescribes.

Blood samples are being studied at the National Institutes of Health at Bethesda, Md., which specializes in virus diagnosis, Janney said, but the results will not be known for a week or 10 days.

Sutter, the only doctor in Dames Quarter, is in satisfactory condition at a hospital in Salisbury. He was stricken with severe abdominal pains last week while treating a patient.

The disease appeared in mid-December, hitting its peak in mid-January.

## VOWS TO FILL BIRMINGHAM'S JAILS IN RIOTS

BIRMINGHAM, Ala. (AP)—Eugene Connor wears his nickname "Bull" with pride. Standing on a sidewalk yelling for dogs to halt Negro demonstrations—his eyes flashing—he is one of Alabama's stormiest political figures.

He is an ardent segregationist and public safety commissioner at Birmingham, which finds itself caught up in mushrooming racial troubles.

### TO FILL JAIL

He has vowed to fill Birmingham's jail with integrationists. Since racial demonstrations began last Wednesday, 96 Negroes have been jailed.

Connor, 62, appears to be anybody's grandfather. He becomes stern in the face of racial difficulties.

He got his nickname because of the booming voice he used in announcing baseball games for a Birmingham radio station more than 20 years ago.

### BRIEF VIOLENCE

A demonstration last Saturday flared into violence for about 15 seconds—the length of time it took Connor and policemen with dogs to rush into a crowd of about 200.

"If they want to go to jail, we'll put 'em there. Give 'em what they want. That's our motto."

Connor's white supremacist fervor attracted national attention in 1948 when he stalked out of the Democratic National Convention in Philadelphia, leading half the Alabama delegation after debate on a civil rights plank in the party platform.

### BLAMES RABBLEROUSERS

In 1950, Connor had former Sen. Glenn Taylor of Idaho jailed for violating a segregation law in a Birmingham visit. The U.S. Supreme Court ruled in Connor's favor.

"The mystery of the whole situation is how can these simple home folks be talked into going to jail by a bunch of rabblerozers?" he said.

"That's what they're doing—talking the people into jail. Then the leaders sit back, take it easy and plan who they're going to talk into jail next."

### WOMAN KILLED

WATTSBURG, Pa. (AP)—A woman was killed and three persons injured Monday in a two-car collision on Route 89 near this Erie County town.

Mrs. Earl T. Coons, 59, of Corry died instantly. She was a passenger in a car driven by her 73-year-old husband. He is in fair condition at Erie's St. Vincent Hospital.

Dartmouth's golf team includes Jan Hoving, a native of Holland.

## People In The News

Edwin Palmer Hoyt, publisher of the Denver Post, says the country's confidence in President Kennedy seems to be slipping.

He told the Knife and Fork Club at Portland Ore., Monday night that "when the President got tough, the people were solidly behind him and the country felt a sense of direction."

That was in the crisis over missiles in Cuba. Since then the Cuban situation has slipped, Hoyt said, "into a hazy state."

Confusion over taxes, the managed news controversy and a deep-center attitude of Congress have contributed to a decline in confidence in the President, Hoyt added.

"The survival of the United States could well be affected by confidence or lack of confidence in the U.S. president," he said, urging Kennedy to use his own judgment rather than that of advisers. He described Kennedy's advisers as "intellectuals whose sense of the practical is virtually nonexistent."

Actor John Wayne testified in Superior Court at Phoenix, Ariz., Monday in a suit to stop the John Wayne Realty and Investment Co. of Phoenix from using that name.

Wayne alleges the real estate firm is trying to exploit his name. He told the court his real name is Michael Robert Morrison, but he has used the name John Wayne in all his transactions since 1929.

Wayne C. Johns, Phoenix, owner of the real estate firm, testified that "As many people call me John as call me Wayne."

## OLD TRAFFIC OFFENDERS MAY GO FREE

HARRISBURG (AP)—Some 130,000 traffic offenders whose violations date back from one to three years may go unpunished, Revenue Secretary Theodore B. Smith said Monday.

"I don't see how we can gain any respect for the law by punishing them for offenses one or two years old," Smith said. "I think the swiftness and the sureness of the punishment is the deterrent to the violation, not the severity."

Smith added, however, that the final decision would not be his to make but would rest on Harry H. Brainerd, the new traffic safety commissioner. Smith made his impromptu statements following the swearing-in of Brainerd, whose Revenue Department post will pay him \$16,000 a year.

Brainerd's only comment on the subject was that he is "going to look them over," adding: "I've only been here four hours."

Brainerd, a 58-year-old Pittsburgh man who had been serving as executive manager of the Western Pennsylvania Safety Council prior to his appointment, was named last March to succeed O. D. Shiple, who resigned.

One position he took in his first minutes as the state's new traffic safety chief was that physical re-examination of drivers would be continued during his stay in office.

## Littlestown

NEW OFFICERS  
FOR JAYCEES  
ARE INSTALLED

The newly elected officers of the Littlestown Junior Chamber of Commerce were installed at the annual ladies' night banquet of the Jaycees held Tuesday evening in the Starlight Room, Dutterer's Restaurant.

State Vice President Robert Weiland, Gettysburg, installed the following: President, Richard E. Selby; vice president, Clyde Bucher; state director, Paul F. Bolter Jr.; secretary-treasurer, Kenneth S. Ogg; directors, Clyde W. Crouse and J. Scott Zanger.

State Vice President Weiland inducted Fred L. Dutterer into the chapter membership.

The guest speaker of the evening was Ferd Baker, Hanover, Pennsylvania State Jaycee secretary. In his talk, he emphasized the importance of leadership qualities of the Junior Chamber of Commerce.

## PROPOSES CIVIL COUNCIL

L. Robert Snyder, a past president of the chapter, introduced the following invited guests: Mrs. Kent E. Daum, president of the Junior Woman's Club of Littlestown; Mrs. Edward H. Leister, president of the Community Club; Marvin F. Breighner, president of the Chamber of Commerce, and a past Jaycee president; Harry D. Feeser, president of the Lions Club; Luther W. Ritter, a past president of the Rotary Club, and Robert Gordon, York, formerly of Littlestown, now state vice president-elect. These guests were accompanied by their husbands or wives.

President Selby announced the Jaycee proposed project of organizing a local civic council. Paul Bolter, retiring president, gave his annual report of chapter projects during his term in office. The program concluded with the Jaycee Creed, led by the new president, and remarks by the toastmaster, L. Robert Snyder.

Prior to serving the banquet to 42 persons in attendance, the invocation was given by Otto C. Sells.

The next chapter project will be to sponsor the Sabin oral polio vaccine clinic on Sunday, April 21. Details on this immunization program will be announced later.

The next chapter meeting will be held Tuesday, April 23, 8 p.m. in the Jaycee office at the Community Center. Before the regular session of directors will meet at 7:30 p.m.

BICENTENNIAL  
SEAL GIVEN TO  
TOWN COUNCIL

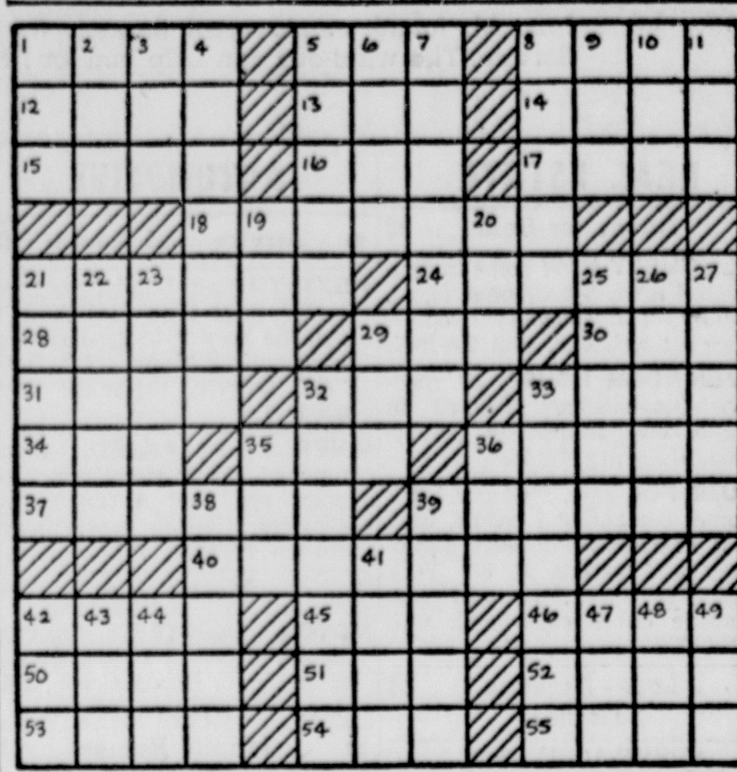

Harry F. Walter, McSherrytown, designer of the McSherrytown bicentennial seal, presented an oil rendition of the seal to the borough Monday evening at a session of the councilmen in the borough building.

The seal commemorates the 200th birthday of the community. Accepting the painting on behalf of the borough was Mayor F. Joseph Sneeringer.

## TO CONTROL PEDDLERS

Councilmen emphasized enforcement of the borough peddler license on which the rate was changed through an ordinance passed last year. The rate was made a flat \$25 per year and peddlers of all types are required to register for a license. The police department was directed to enforce the ordinance.

## PROPOSES CLEANUP

The borough engineer was authorized to begin staking off sections of streets for installation of side walks and curbing. Councilmen said sections to be renovated are South St. from Third to Fourth Sts.; Delone Ave. from Center to Sixth Sts., and Fairview Ave.

The borough work report indicated that alleys throughout town have been graded and stone spread for better travel.

Mayor Sneeringer proposed that the borough in conjunction with the council's street program and the town's bicentennial celebration conduct a "clean-up, paint-up, fix-up" program throughout McSherrytown.
